

Fudan-Groningen Double Degree Joint Programme in International Economics and Business

THE BEST OF EAST AND WEST

Fudan University in Shanghai, China, and the University of Groningen in the Netherlands have together developed an innovative double degree joint programme in International Economics and Business (IE&B). The programme provides a solid academic education in economics and business, with specific focus on the application of economic and business theories to current themes in international trade and economic development, the strategy and performance of multinational enterprises, globalization and emerging markets and international financial management and capital markets.

Are you a Fudan second-year Economics student who aspires to an international career? Do you want to broaden your horizon and experience life in the international environment of a classical European university, and at the same time acquire the knowledge, skills and competencies needed for a career as an academic teacher or researcher, as a professional economist, in the public or private sector, in China or the West? If so, then this programme is tailor-made for you.

INTERESTED IN APPLYING?

Make sure you contact the Fudan-Groningen Double Degree Joint Programme coordinator for more information and full details about the application and selection procedure in Fudan.

PROFILE

During the first two years you study at the School of Economics at Fudan University, after which you transfer to the IE&B bachelor programme at the Faculty of Economics in Groningen for your final two years of study (in English). After four years (2 years at Fudan and 2 years in Groningen) you graduate with two bachelor degrees: a Bachelor of Arts degree from Fudan and a Bachelor of Science degree from Groningen.

WHAT ARE THE UNIQUE ADVANTAGES?

- Two internationally recognised bachelor degrees from two prestigious universities.
- An international study environment: lecturers, researchers and students from around the world converge in Groningen to exchange knowledge and theories that can be applied to economic issues worldwide.
- Self development: the IE&B programme in Groningen uses a small group teaching concept, an advanced teaching method which combines tutorials, group work (no more than 10-15 students), private study, working on assignments (no more than 4 students) and giving presentations. You acquire knowledge through active exchange with fellow students under the supervision of tutors. Your learning process is for a large part determined by you.
- Possibility to continue your studies in Groningen after graduation: your BSc in IE&B qualifies you for direct admission to the advanced courses offered in the one-year MSc in IE&B.
- Lively student social life in the charming historic city of Groningen: plenty of affordable sport, cultural and recreational activities specially geared to student budgets; a chance for you to discover why Groningen's unique blend of traditional and modern norms, customs and values is so popular with international students.

ENTRY REQUIREMENTS

- You have completed your first two years of study in Fudan and you have been selected by your Fudan coordinator.
- Your oral and written proficiency in English is satisfactory; your IELTS score is at least 6.5.
- The Netherlands Education Support Office (NESO) in Beijing has issued you with a NESO Certificate

TUITION FEES AND SCHOLARSHIPS

- EUR 6.700 (annual tuition fee in 2009-2010)
- A limited number of scholarships are made available each year
