Full Papers

Havekes, R., Nijholt, I.M., Visser, K.D., Eisel, U.L., Van der Zee, E.A. Transgenic inhibition of neuronal calcineurin activity in the forebrain facilitates fear conditioning, but inhibits the extinction of contextual fear memories. Neurobiology of learning and Memory In press

Abstracts

Carere, C., Havekes, R., Oorebeek, M., Groothuis, T. 2002 Cognitive abilities in a nonstorer bird species selected for different coping styles: comparing a visual and non visual task. Abstracts of the International Behavioral Neuroscience Society Vol. 11, p. 39; 19-23 June Capri Italy
List of Publications

Van der Zee, E.A., Havekes, R., Luiten, P.G.M. 2002 Alternation in the spatial location of a food reward enhances calcineurin immunoreactivity in mouse hippocampus. Abstracts of the 23nd Annual Meeting of the Society for Neuroscience; 2-7 November, Orlando Florida USA.

Havekes, R, Luiten, P.G.M., Van der Zee, E.A. 2004 Hippocampal calcineurin activity levels are altered during the formation and modification of memory. Abstracts of the 8th Endo-Neuro meeting; I-4 June, Doorwerth The Netherlands.

Havekes, R., Novati, A., Hagewoud, R., Barf, R.P., Van der Borght, K., Van der Zee, E.A., Meerlo, P. 2007 The tired hippocampus: effects sleep deprivation on AMPA receptor function and cell proliferation. 6th Dutch Endo-Neuro-Psychology and 10th Endo-Neuro Meeting. June 5-8, pages

Hogenelst, K., Novati, A., Havekes, R., Van der Zee, E.A., Meerlo, P. 2007 The role of sleep in memory formation and behavioral flexibility. 6th Dutch Endo-Neuro-Psychology and 10th Endo-Neuro Meeting. June 5-8, pages
