HTRIC is about Health Technology for more healthy years. Join us on October 1, 2021 for the first HTRIC Research Meet-up. Connect with your peers, learn about their work and meet your potential research partners. Our objectives at this first Research Meet-up are: sharing our thoughts and acquired knowledge with you, to trigger our ambition to innovate, and to cooperate with us to create healthy years to come. We will also announce shared PhD positions.
