Main findings

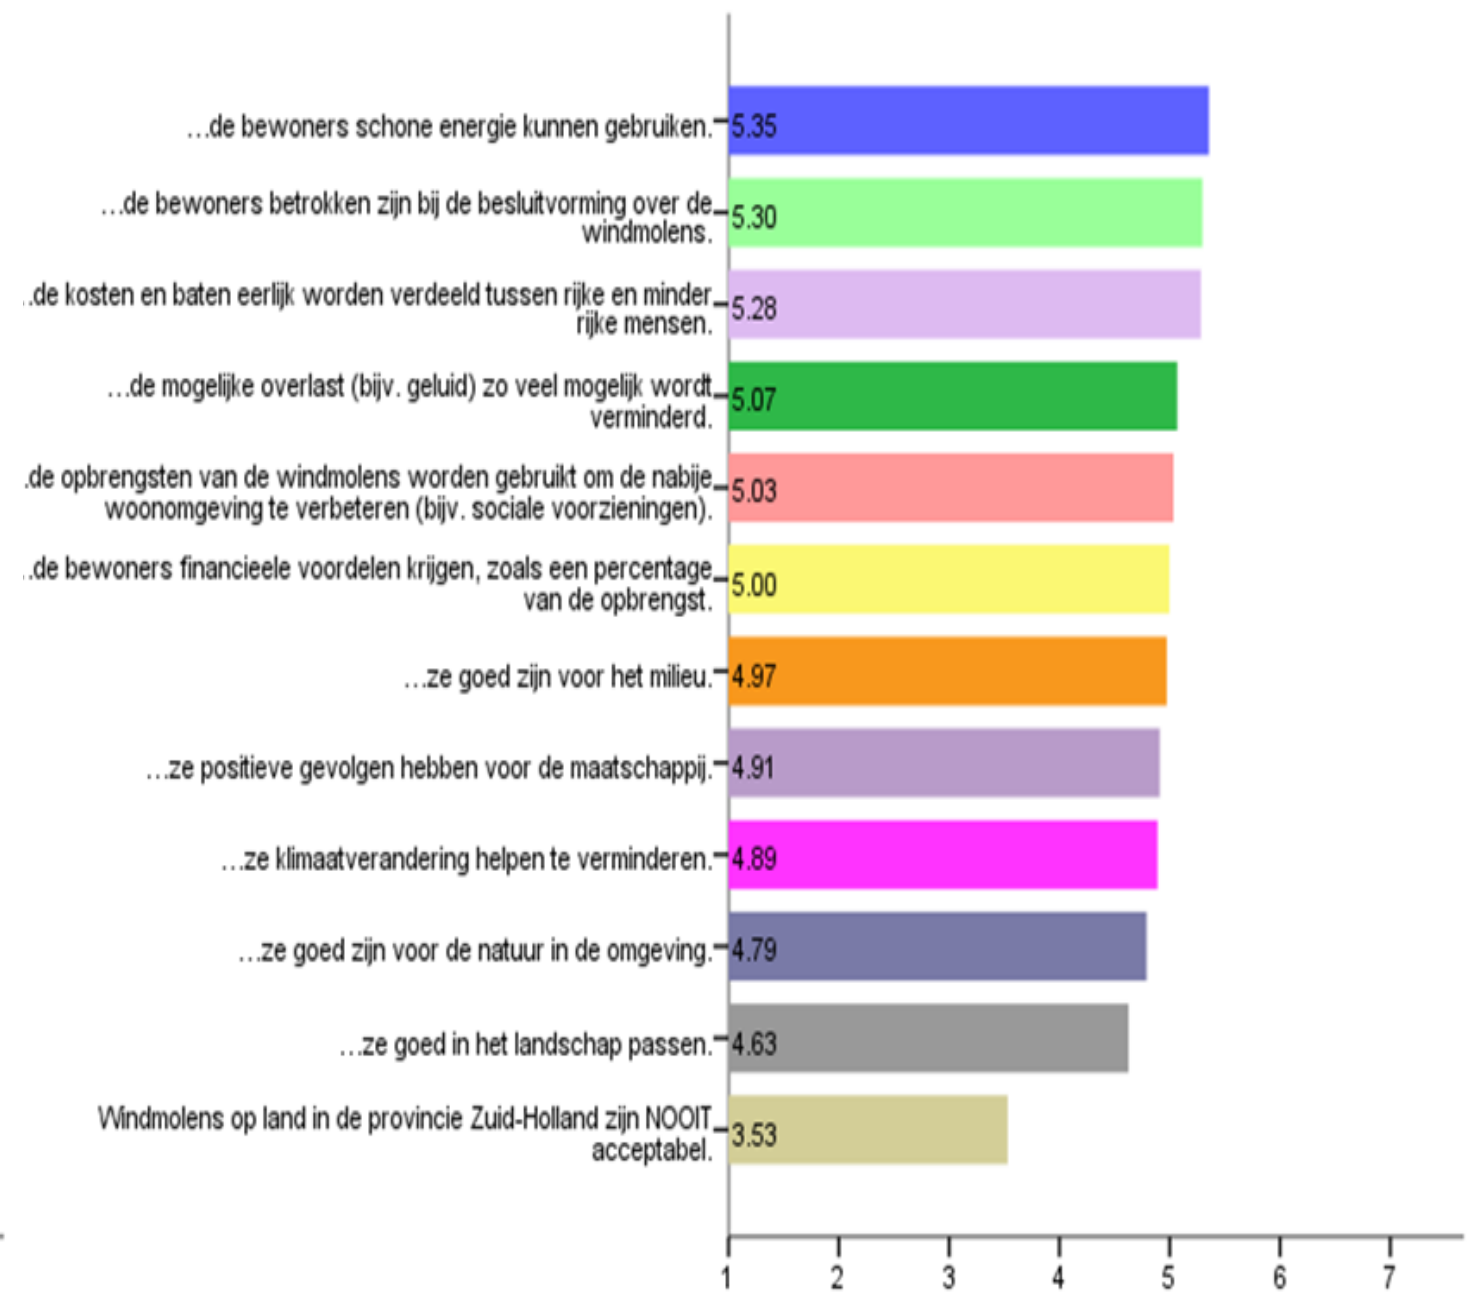

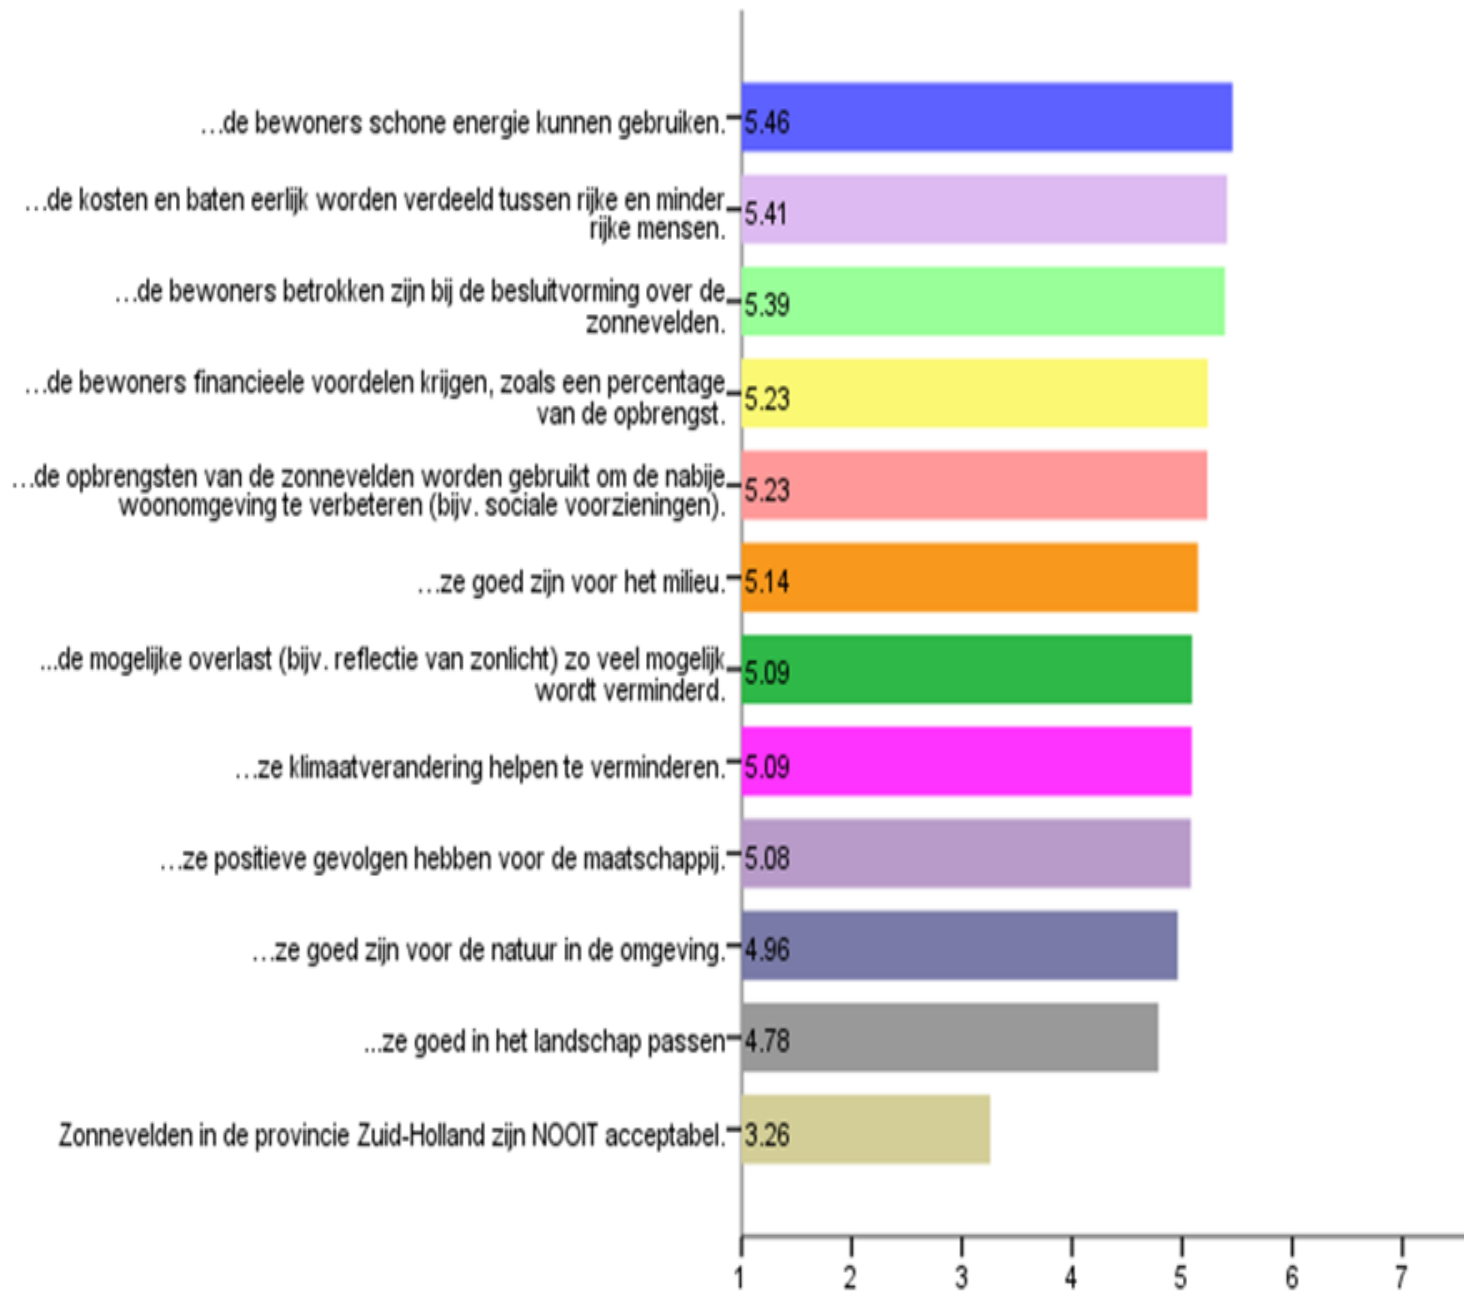

Oordelen over energiebronnen in de provincie Zuid Holland

Oordelen over energiebronnen in zeven regio's

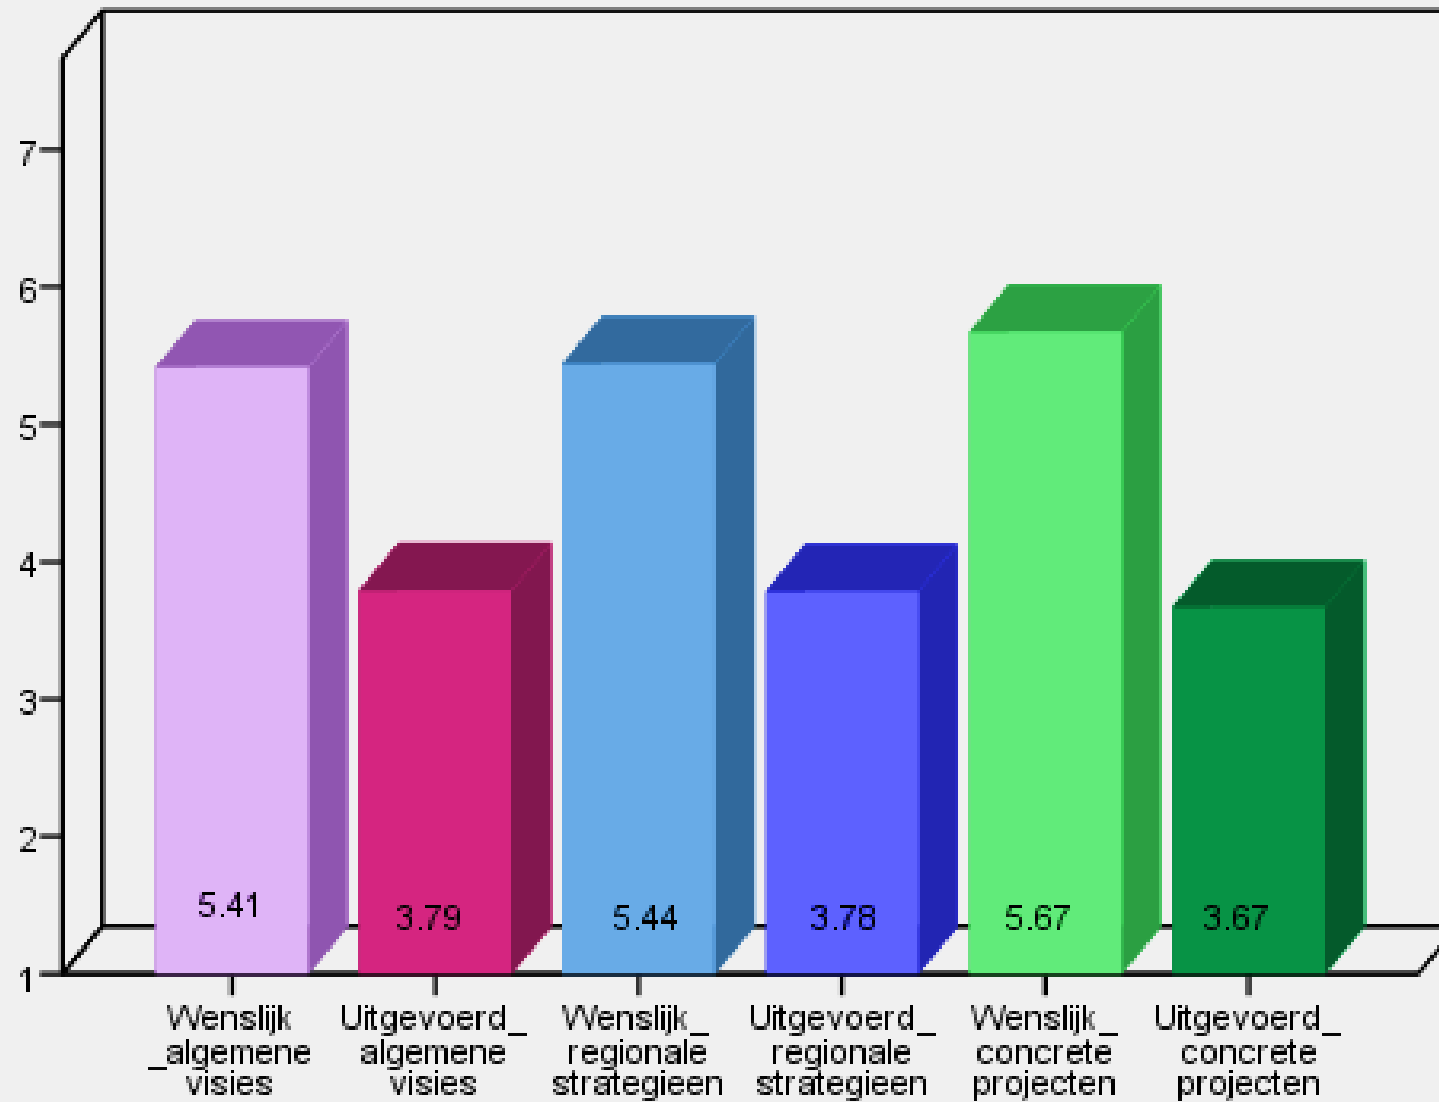

Zonnevelden en windmolens op land in de provincie Zuid Holland — Voorwaarden

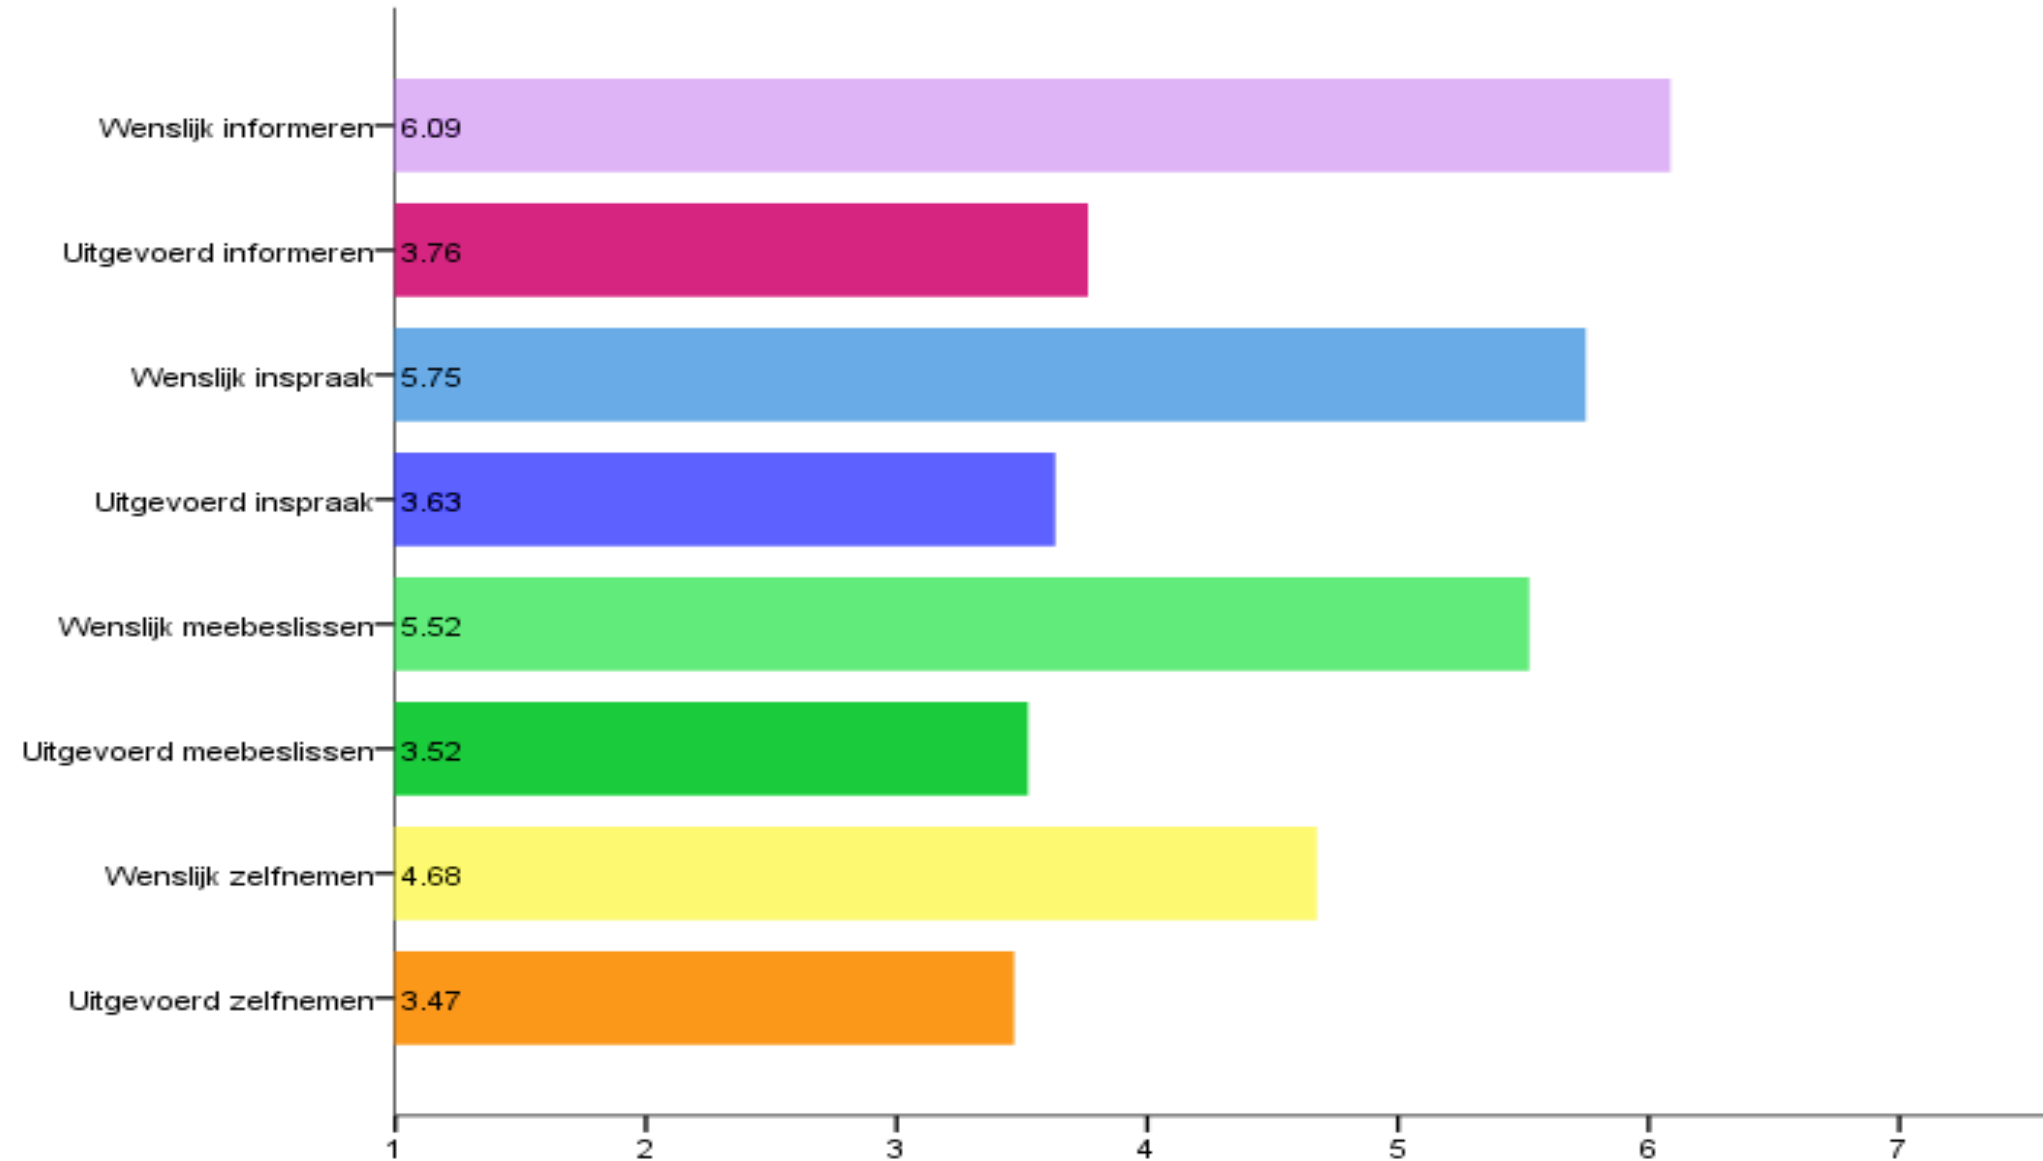

Het betrekken van mensen bij besluitvorming over energietransitie

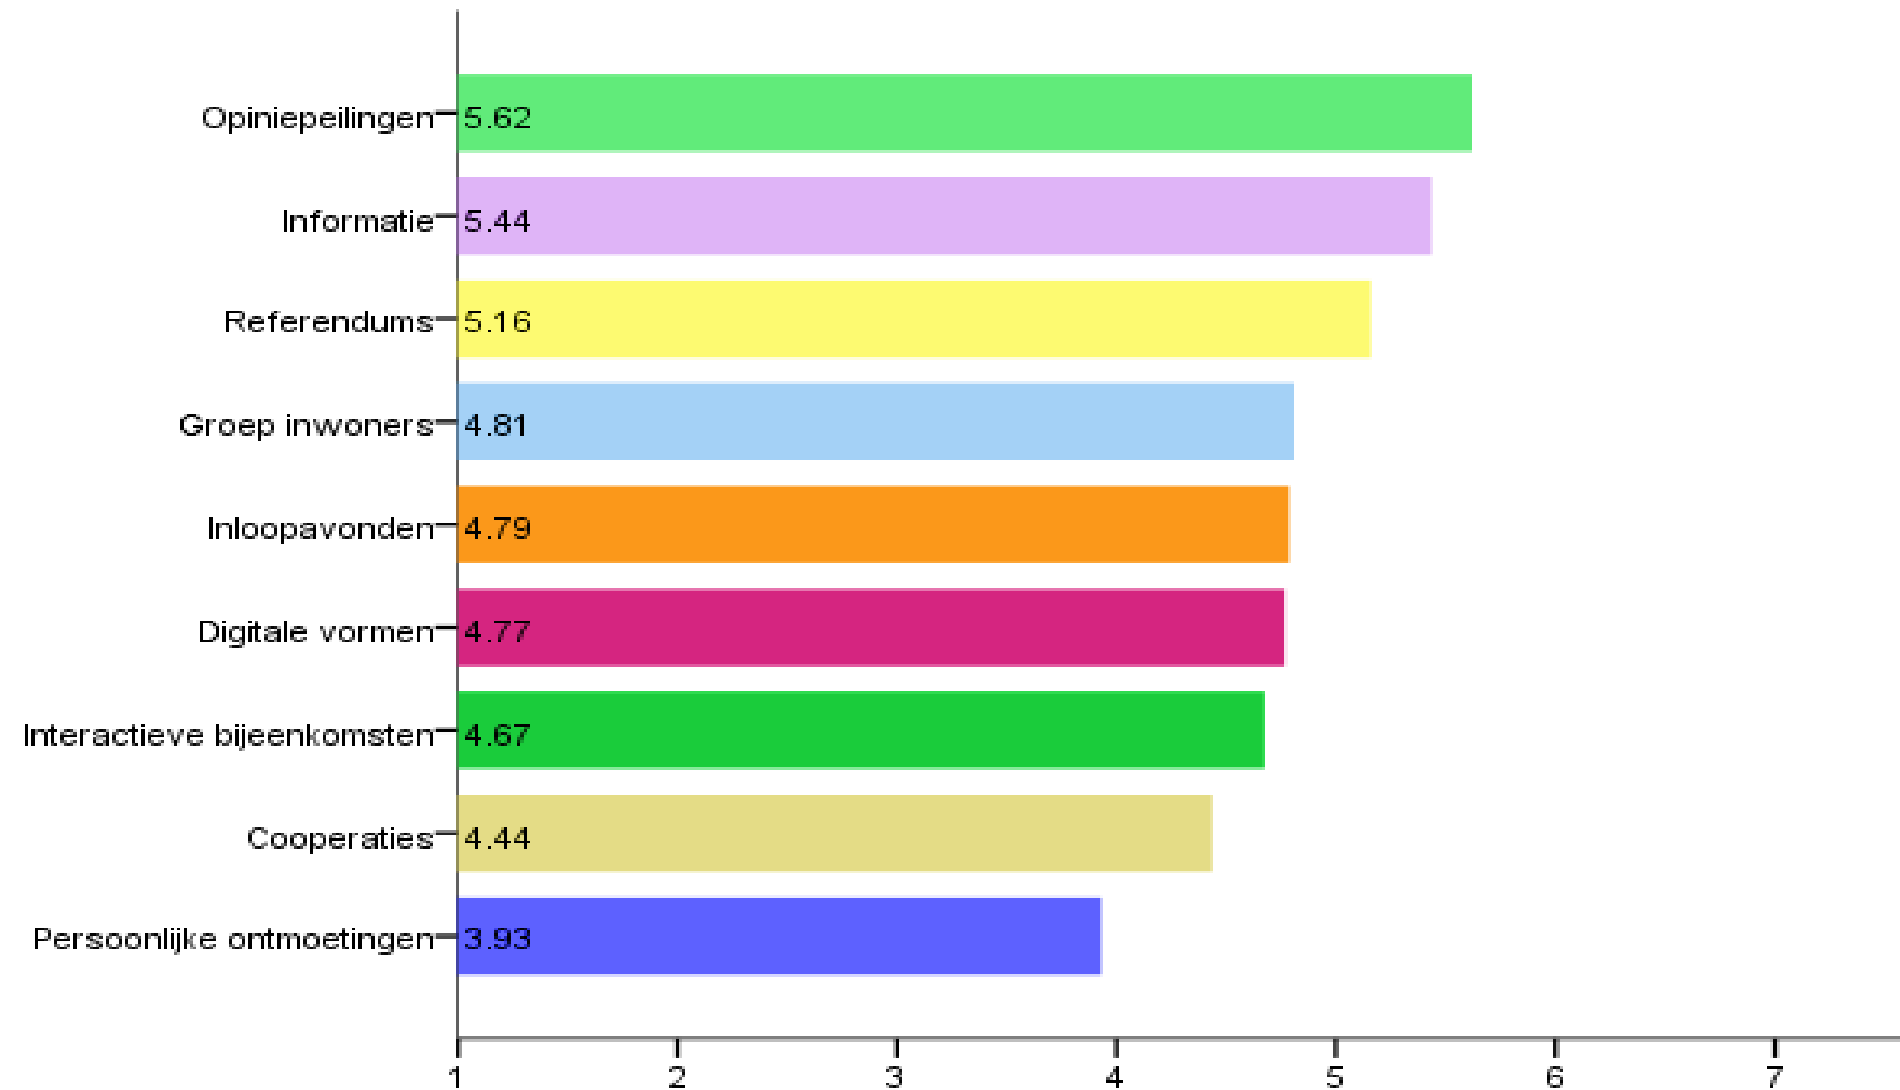

Fase van besluitvorming

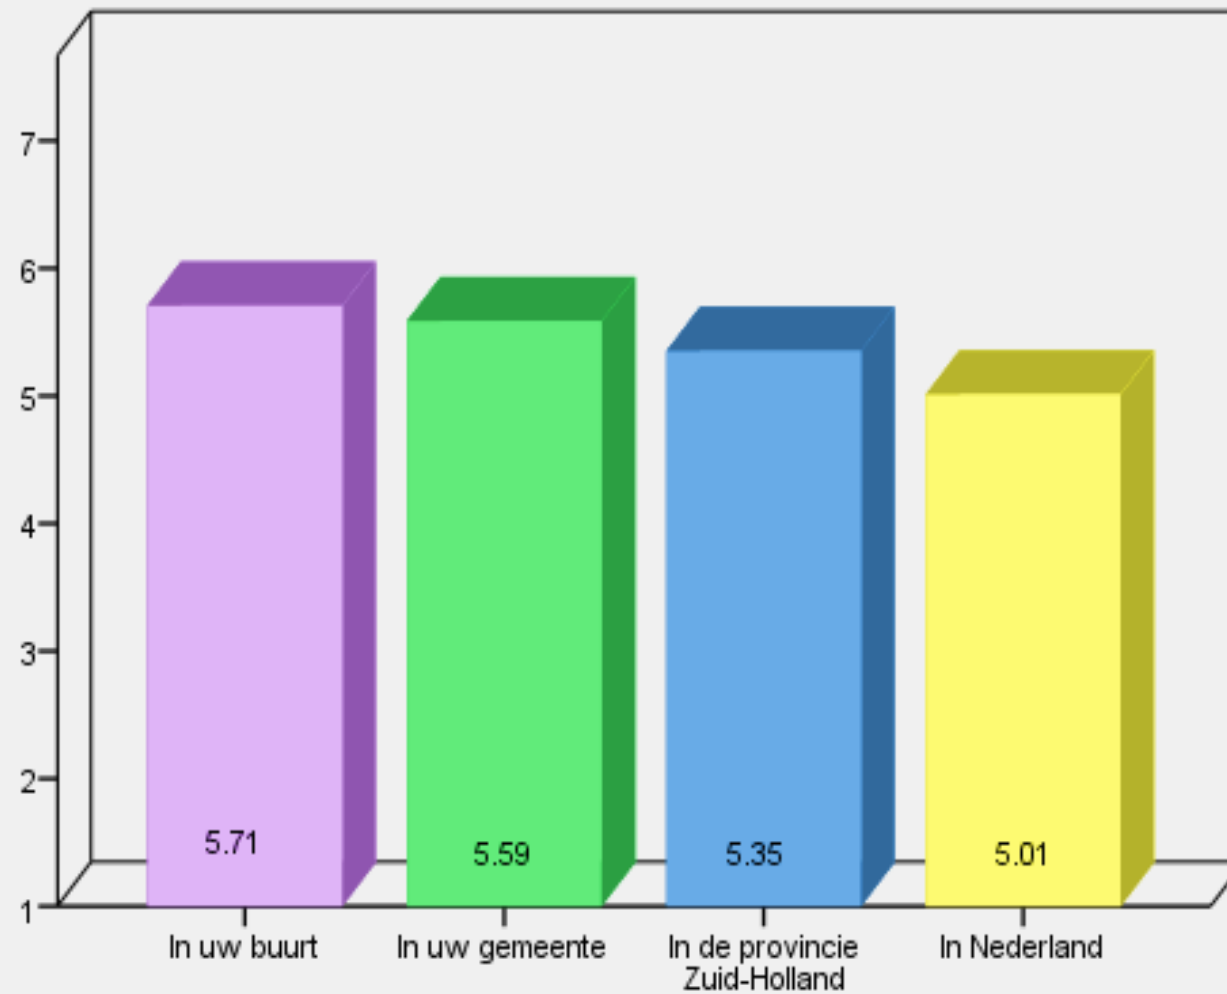

Vorm van participatie

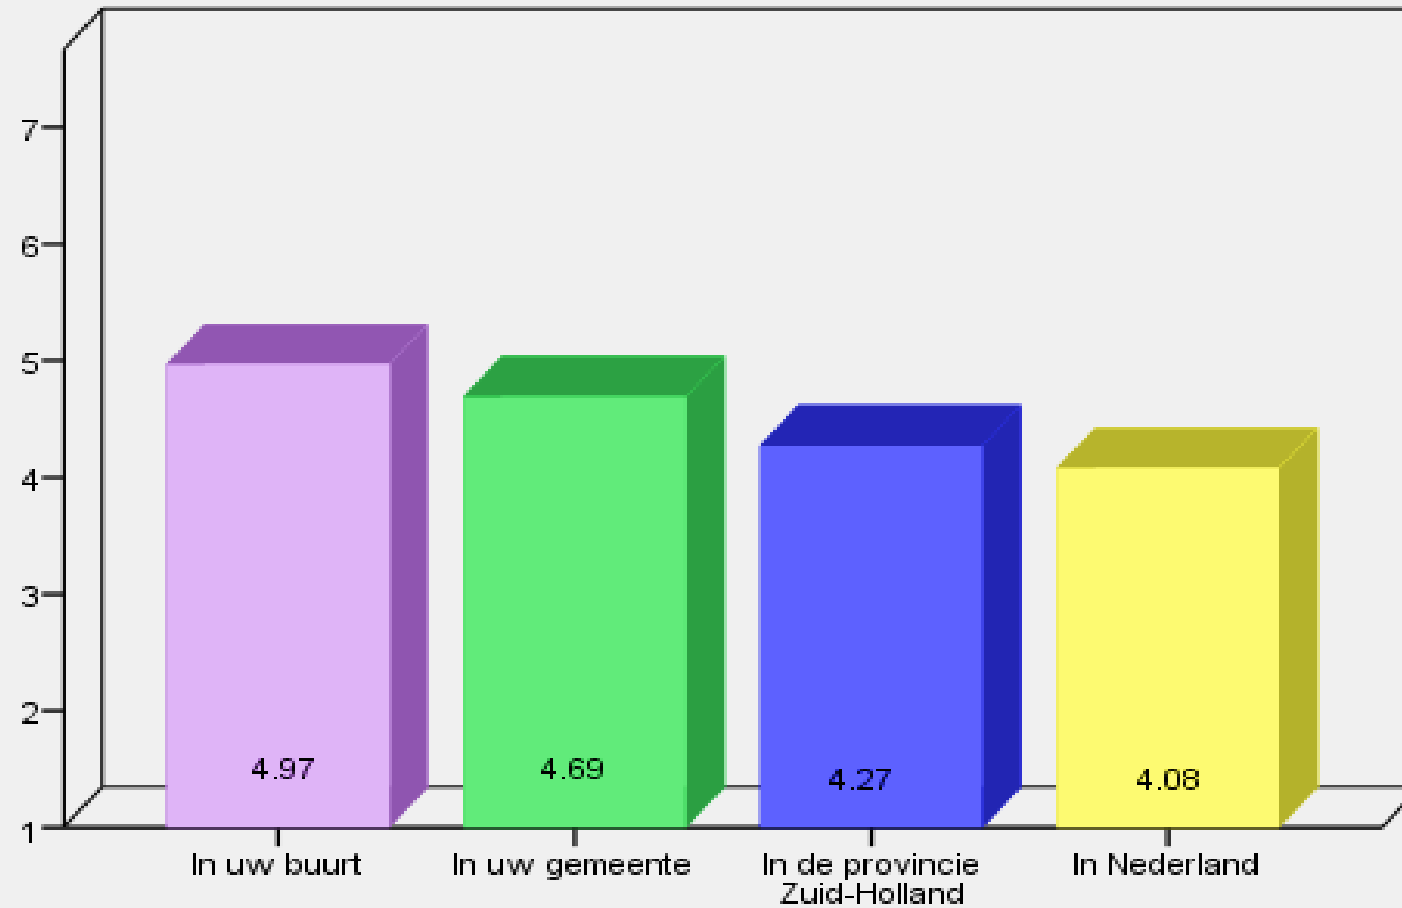

Methode van participatie

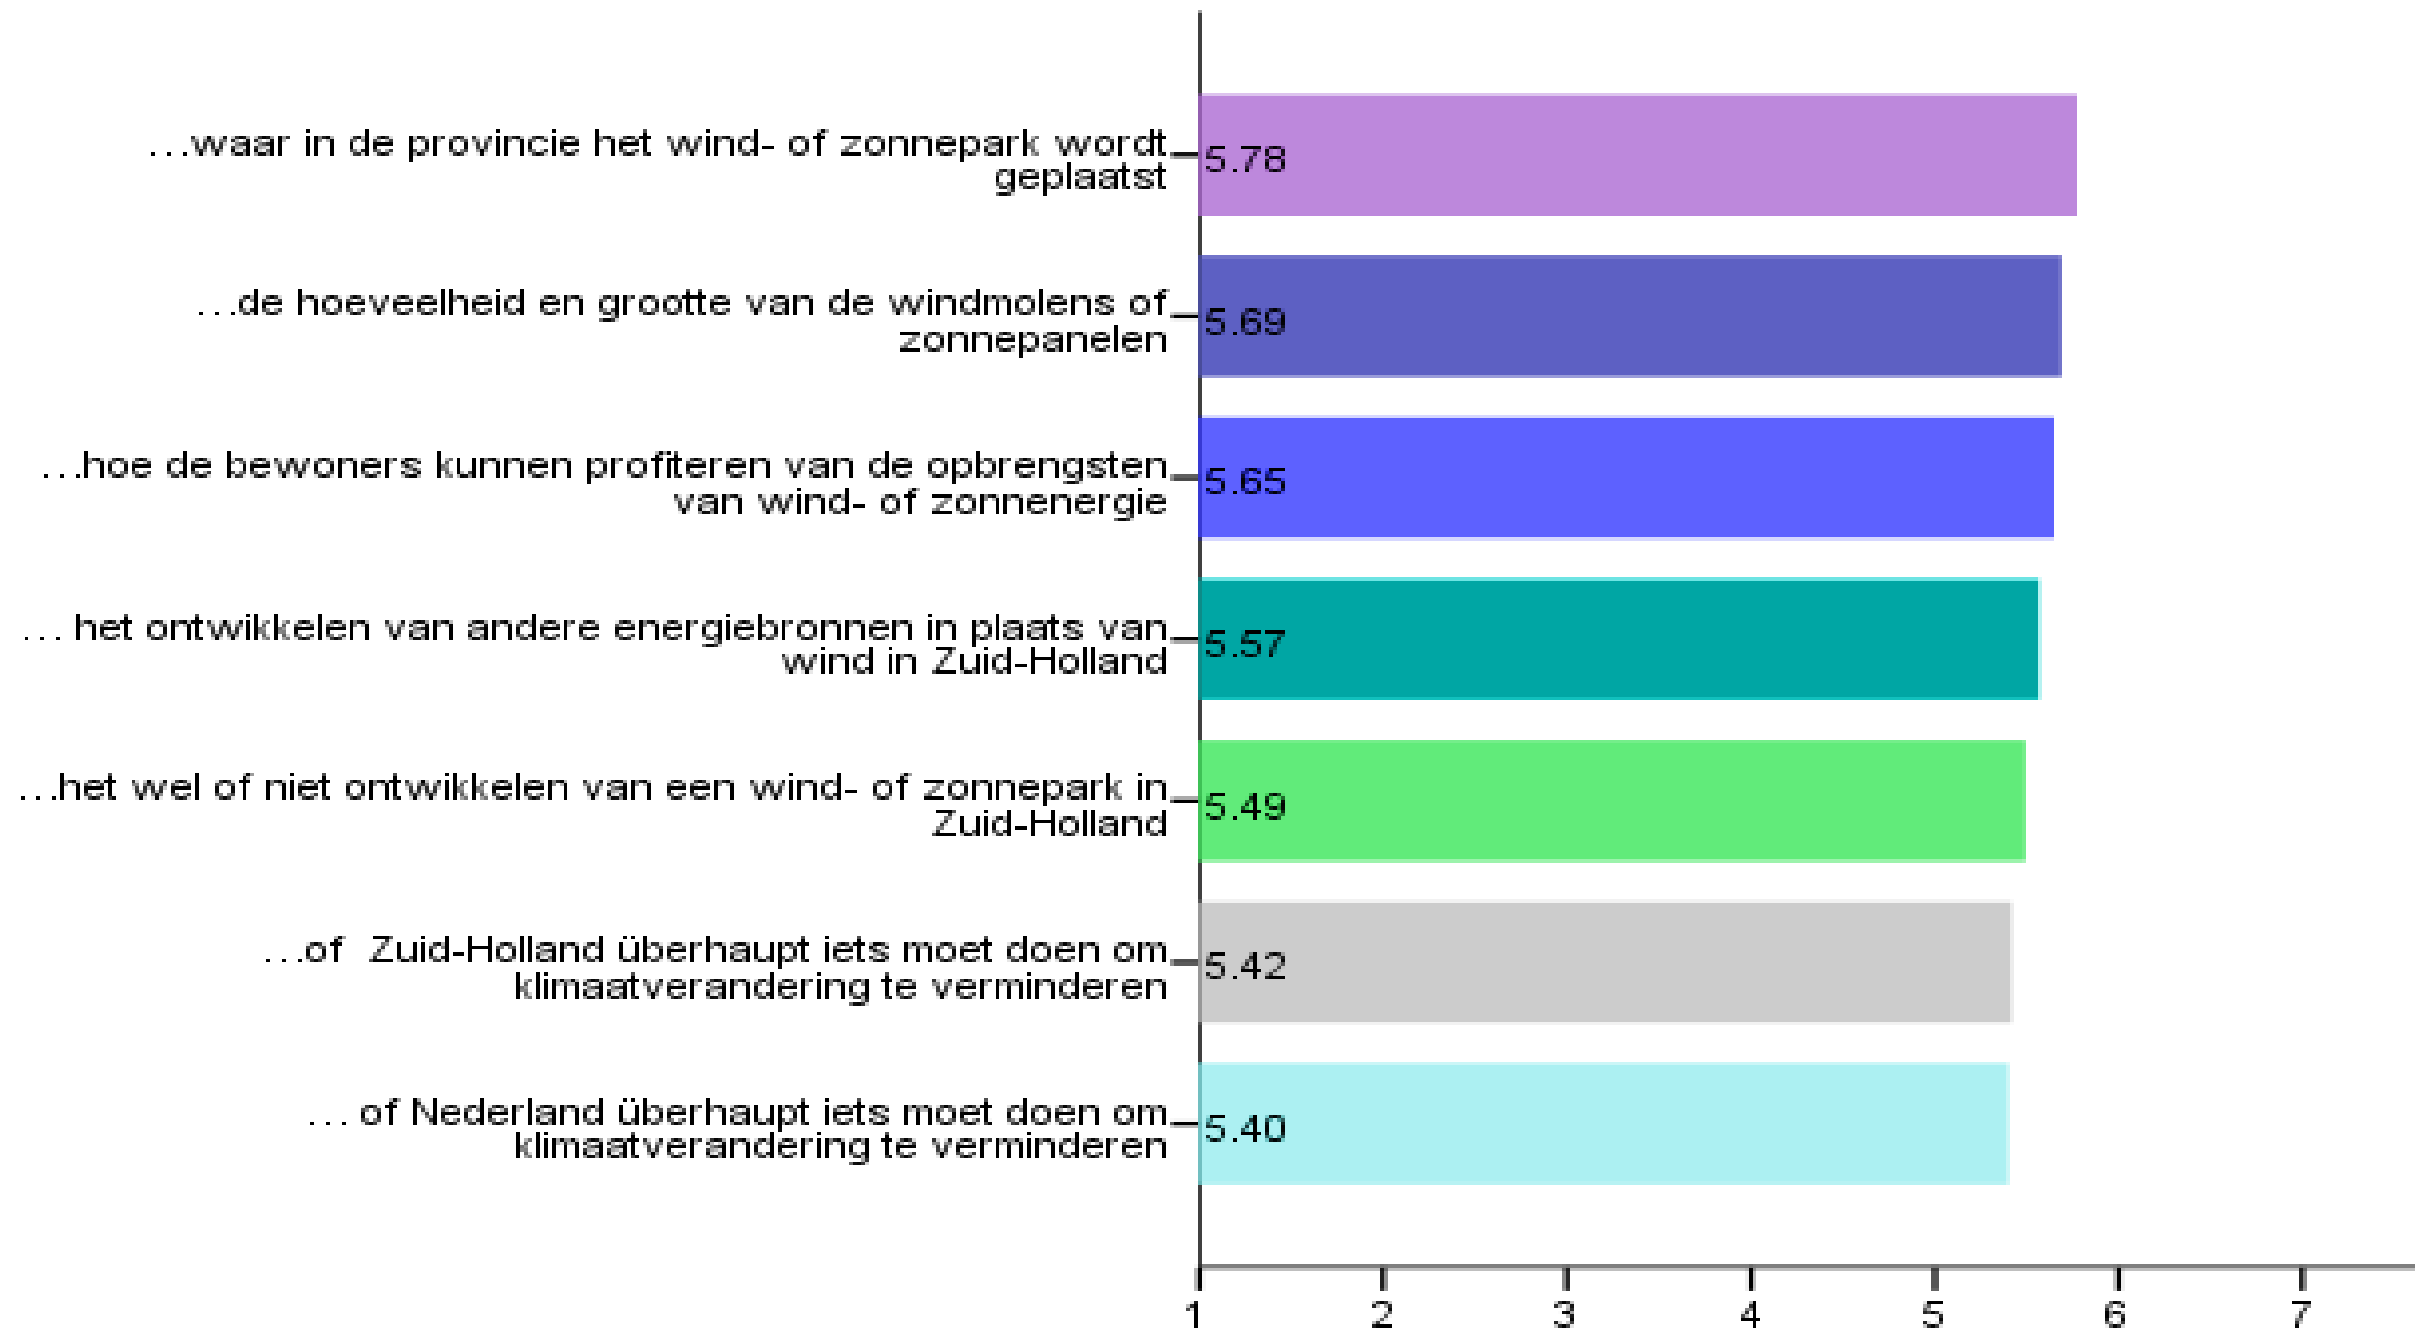

In hoeverre vindt u dat inwoners van de provincie Zuid-Holland betrokken moeten kunnen worden bij de besluitvorming over...

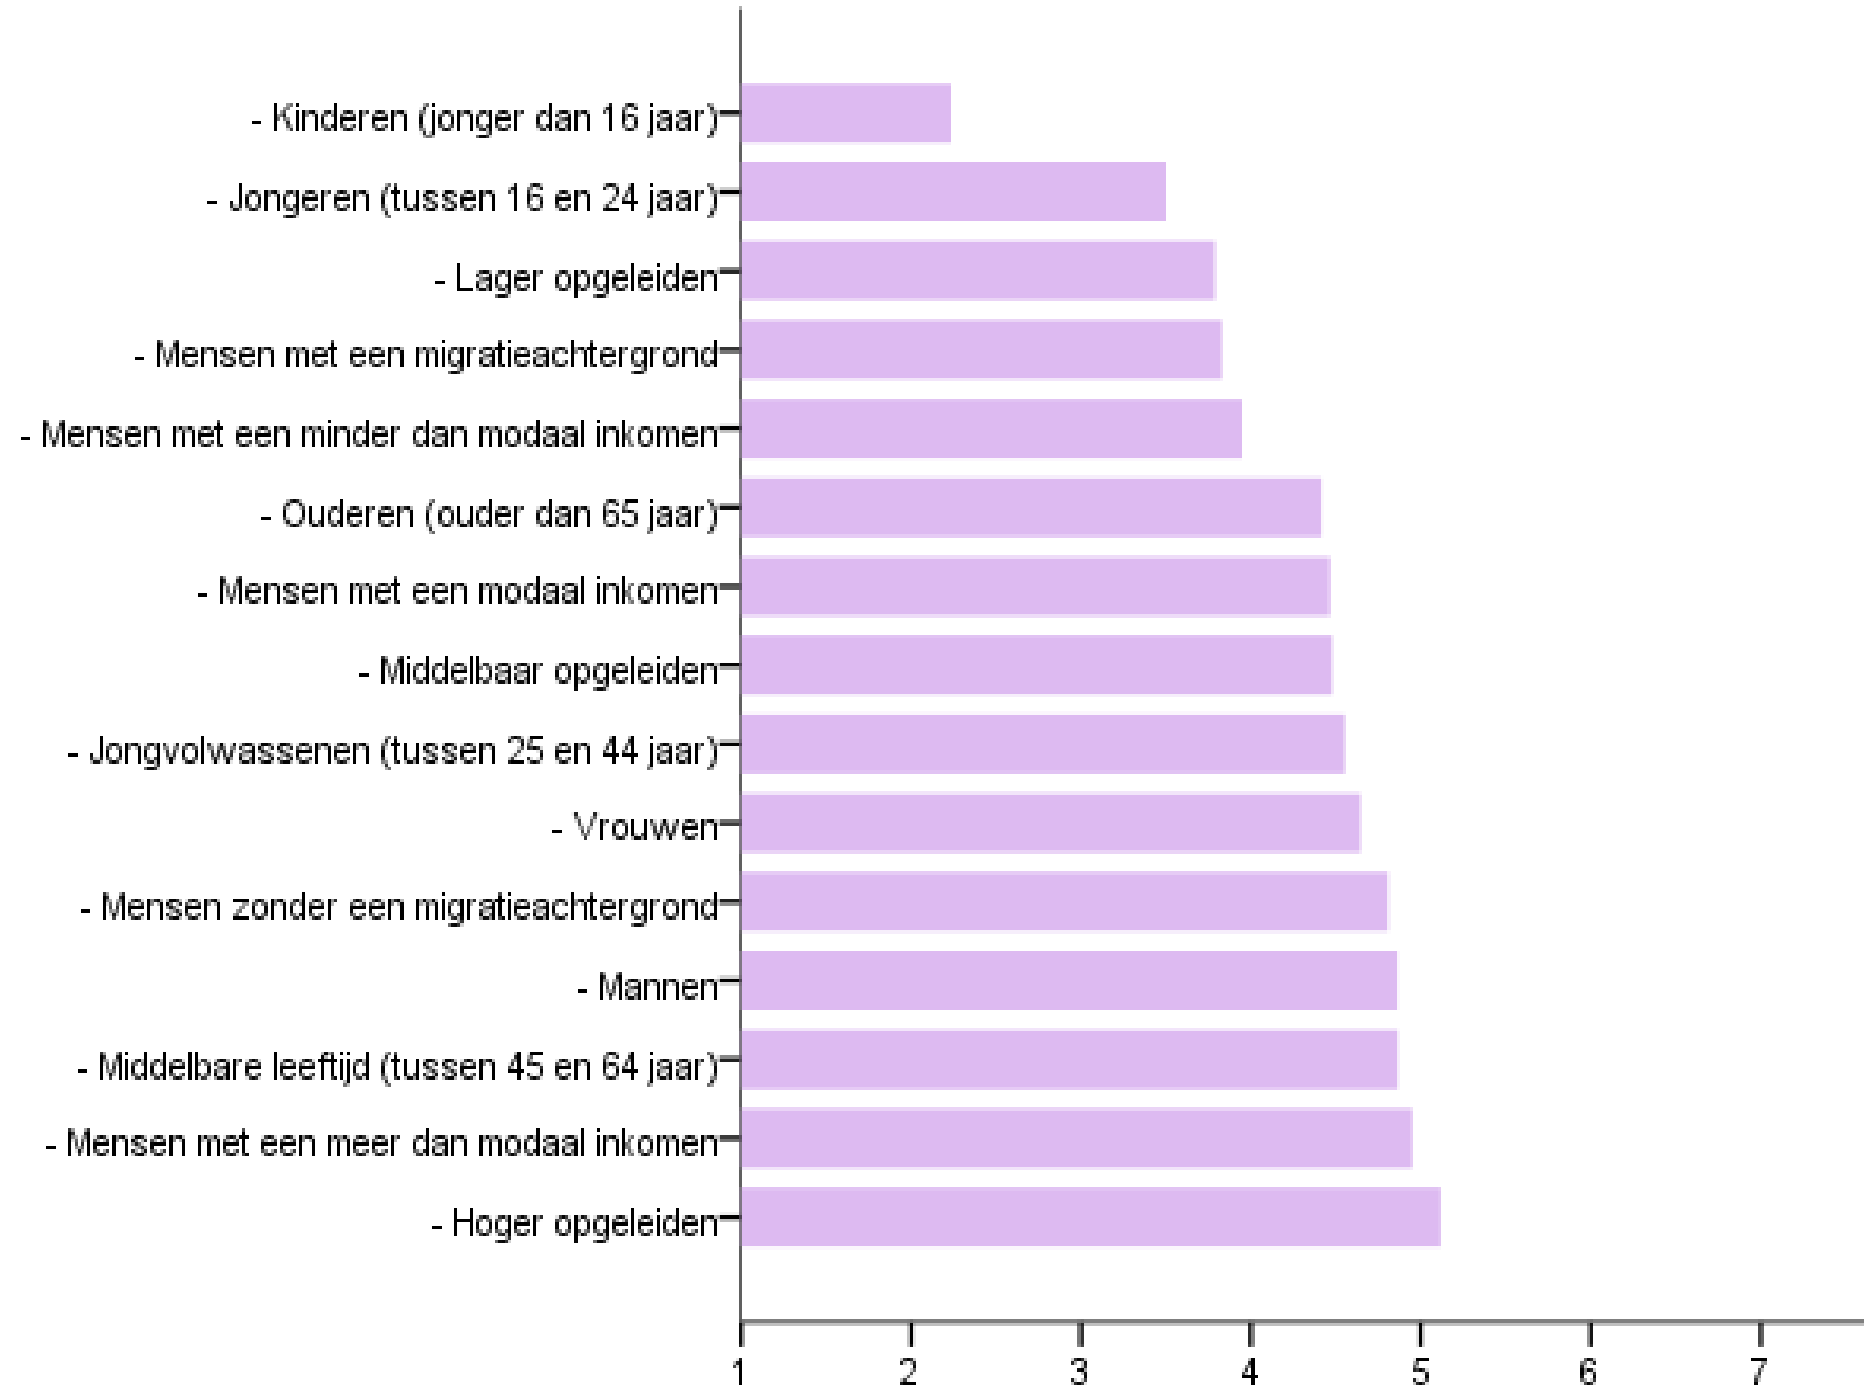

In hoeverre wilt u zelf betrokken zijn bij de besluitvorming over...

Welke beslissingen wil men beïnvloeden?

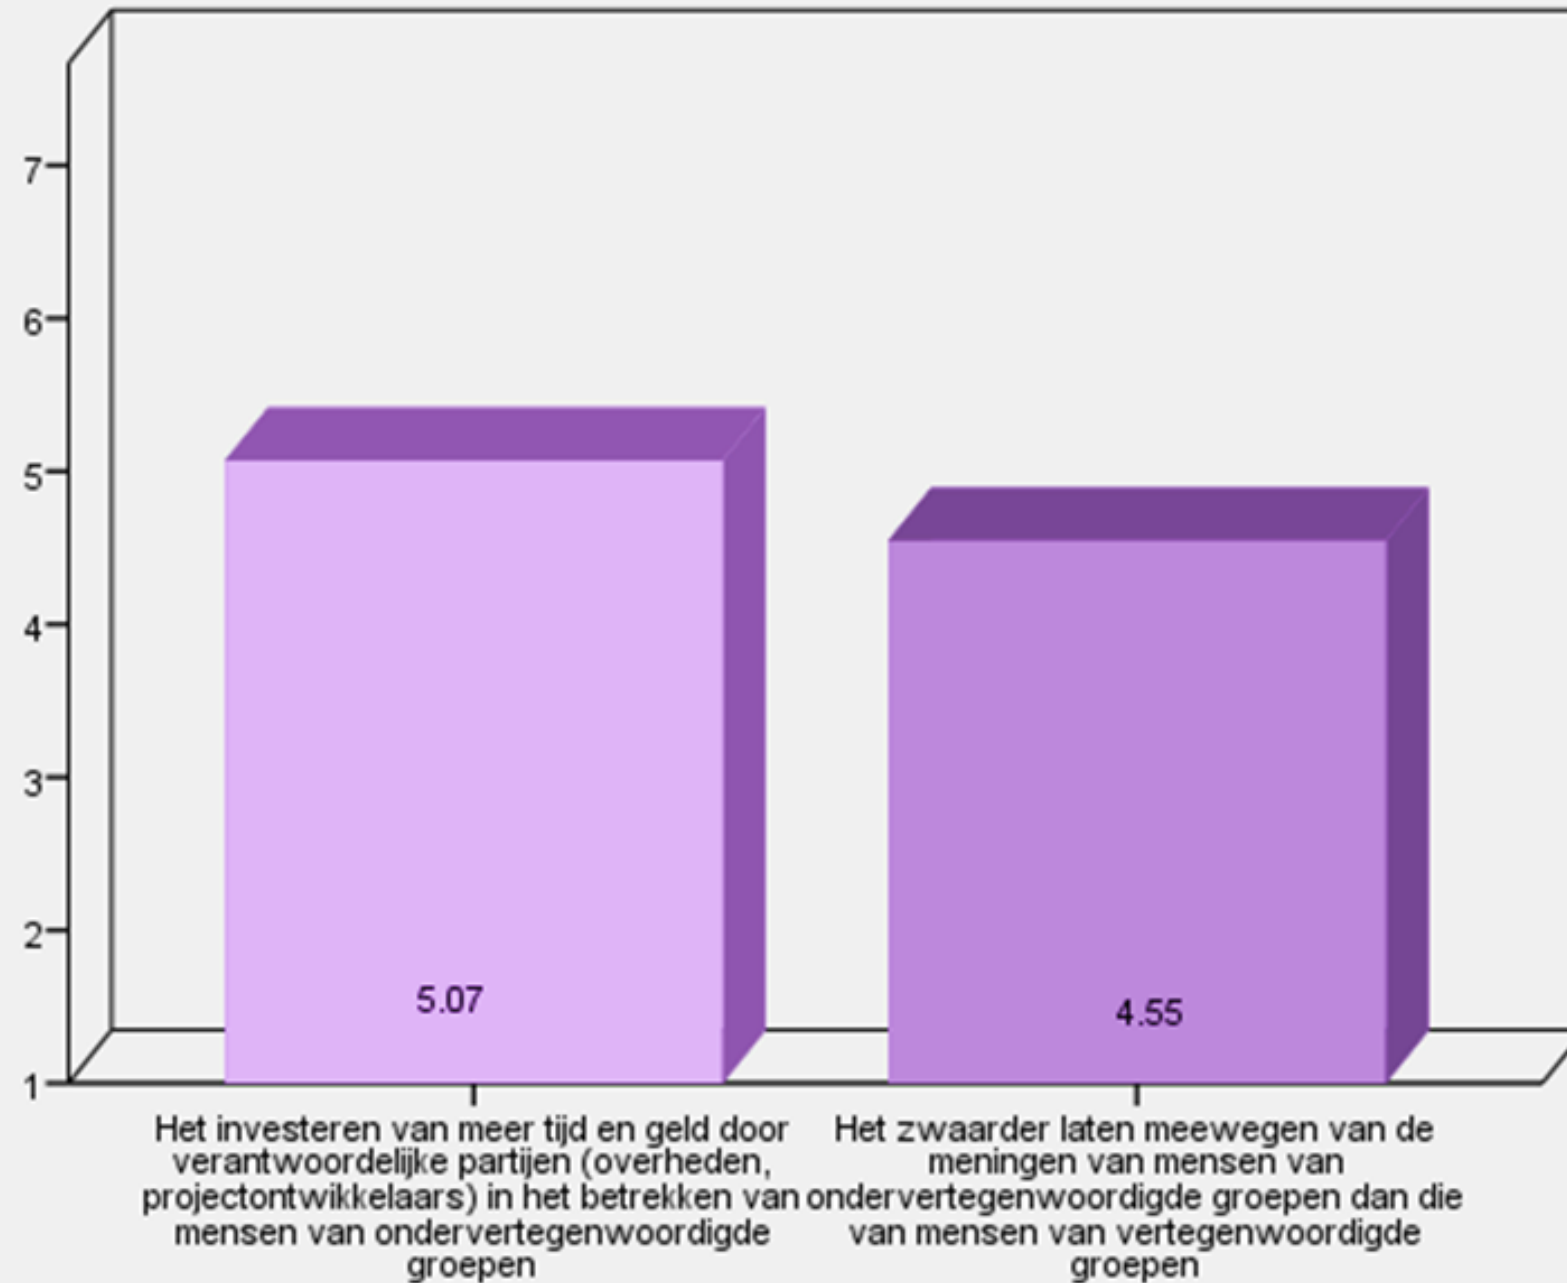

Vertegenwoordiger in publieke participatie

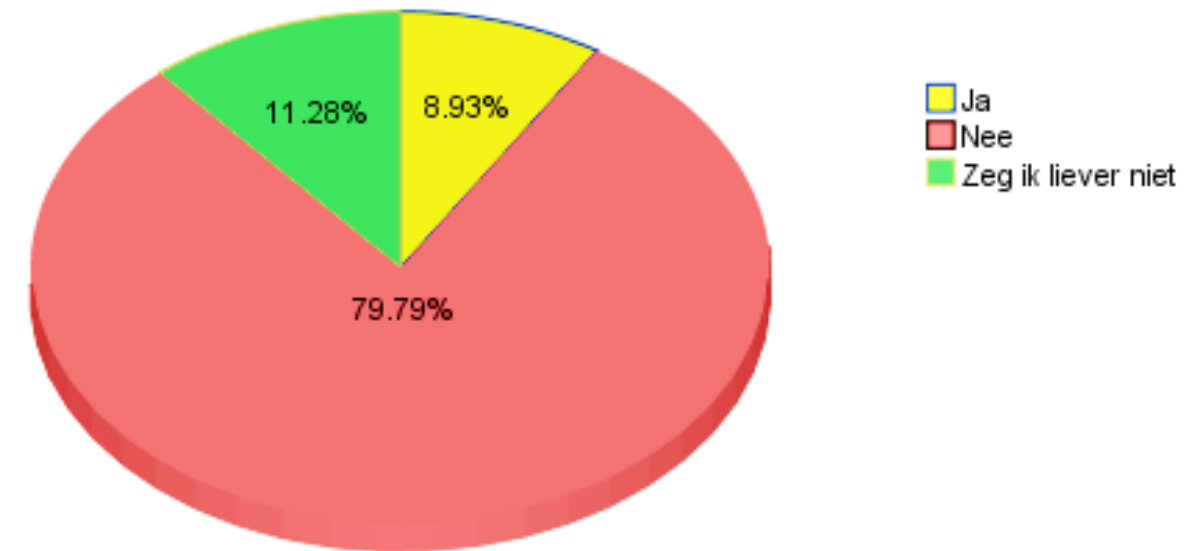

To what extent do the participants think that the social groups listed are represented in the decision-making process about the energy transition in Zuid-Holland:

Vertegenwoordiger in publieke participatie

Vertegenwoordiger in publieke participatie

Do you see yourself as a member of a group (or several groups) that might be **underrepresented** in the decision-making process about the energy transition in Zuid-Holland?

**Similar findings
 across seven
 RES-regions**

We are looking for:

- participatory processes in which the contents of RES 1.0 are translated into **municipal policy (e.g., environmental vision/plan)**
- participatory processes on **concrete projects** for the development of renewable energy, e.g., solar parks, wind parks and geothermal projects (including heat networks)

INVITATION

THE SPEAKERS

Nick Pidgeon is a professor of Environmental Psychology, Director of the Understanding Risk Research Group at Cardiff University. He does interdisciplinary research on public engagement with risk and technology, and valuation of ecosystem services.

David Bidwell is associate professor of Department of Marine Affairs at the University of Rhode Island. His research focuses on public acceptance of renewable energy technologies, public participation, environmental attitudes and decision making, and climate adaptation.

Jerzy Jendroska is professor at Opole University as well as Riga Graduate School of Law. His research focuses on environmental law and human rights and democracy.

Projects

Like!Me Living Lab

The Living Lab is a platform for joint research and for developing and sharing knowledge about public participation in decision-making. The University of Groningen is working alongside the provincial and municipal authorities, industry, interest groups and the public to improve public participation.

Equal opportunities and values approach (EVA)
