### SECTION 5 BINDING STUDY ADVICE

**Article 5.1 – Preliminary study advice**

1. Halfway through the first semester of the first year of registration in the propaedeutic phase of the degree programme, students will receive a study progress overview specifying the student workload realized thus far.

   *Additional study progress overviews will be sent to students later in the academic year.*

2. As soon as possible after the end of the first semester, but no later than 1 March, the student will receive written preliminary study advice.

3. This preliminary study advice will include a warning if the student has made insufficient progress with their studies, such that the student still has the opportunity to improve their performance.
4. If the student’s study progress is so unsatisfactory that they cannot reasonably be expected to meet the conditions for positive study advice, as referred to in Article 5.2.2 a and b, the student will be invited to attend a meeting with their study advisor. The aim of the meeting is to discuss the student’s study habits, to reassess the choice of degree programme and if necessary to refer them to a different degree programme.

**Article 5.2 – Definitive study advice**

1. Students must earn at least 45 ECTS credit points in their first year of registration in the propaedeutic phase of the degree programme. This is known as the binding (negative) study advice threshold.

2. A definitive study advice is issued at the end of the **first academic year**, by 31 July at the latest. This can be either:
   a. **positive**: if the student has obtained at least 45 ECTS credit points (20 ECTS credit points in the case of part-time students) for the propaedeutic programme.
   b. **negative**, for students who have earned fewer than 45 ECTS credit points (or 20 ECTS credit points for part-time students) in the propaedeutic programme. This study advice is binding for the student (binding study advice), by virtue of Article 7.8b.3 of the Act.

3. In the event that the preliminary study results are insufficient to such an extent that the student cannot reasonably be expected to pass the 45 ECTS credit points (or 20 ECTS credit points for part-time students) threshold by the end of the first year of study, a binding (negative) study advice may be issued subsequently to the preliminary study advice as referred to in Article 5.1 before the end of the academic year. This may also be at the request of the student. The procedure set out in Article 5.5 will apply.

4. a. The Faculty Board will take extraordinary circumstances as referred to in Article 5.4 into account in its decision on which study advice to issue in the first year of registration for the degree programme.
   b. Notwithstanding the provisions in Article 5.2.2, if no assessment can be made with regard to a student’s suitability for the degree programme due to extraordinary circumstances in the first year, the assessment may be postponed until a later date within the propaedeutic phase.
   c. Students may be granted a lower binding (negative) study advice threshold in the case of structural circumstances, for instance when a student has performance disabilities.

**Article 5.3 – Exceptions to the definitive study advice**

**Multiple degree programmes at the University of Groningen**

1. If the student has registered for two or more University of Groningen degree programmes for the first year of the propaedeutic phase and if they subsequently meets the binding study advice threshold for one of those programmes, as referred to in Article 5.2.1, then the obligation to meet that threshold for the other programme (or programmes) no longer applies for that year. After the student has successfully completed the propaedeutic phase of one degree programme, they no longer have to meet the binding study advice threshold when registering for other degree programmes.

**Propaedeutic certificate already obtained**

2. If the student has already completed the propaedeutic phase of a university degree programme at the University of Groningen or another Dutch university, or – if this is not the case – if they have achieved the 60 ECTS credit points of the first year at the discretion of the Board of Examiners, then the student is not subject to the binding study advice rule.
for the University of Groningen degree programme for which they registered in the propaedeutic phase.

**Deregistration before 1 March**

3. No definitive study advice will be issued to students who submit a request for deregistration from the propaedeutic phase of the degree programme before or as of 1 March of the first year of registration. If this student re-registers in a subsequent academic year, they will once again be subject to the procedure referred to in Article 5.1 in that subsequent academic year. The binding (negative) study advice regulations for the academic year in which they re-register for the degree programme will then apply.

**Deregistration before 1 March + registration as of 1 February**

4. Article 5.2 applies without prejudice to any students who deregister from a degree programme before 1 March and who register by 1 February of that same academic year for a programme belonging to the same programme cluster, indicated in Appendix xxx.

5. Article 5.2 applies without prejudice to any students who deregister from a full-time variant of the degree programme before 1 March and who register by 1 February of that same academic year for a part-time variant of that same programme or for a programme belonging to the same programme cluster, indicated in Appendix xxx.

**Registration as of 1 February**

6. An adapted binding (negative) study advice threshold will apply to students who register for a University of Groningen Bachelor’s degree programme as of 1 February and have not previously been registered as students in the same academic year. At the end of the second semester of the first year of registration, students must have obtained 20 ECTS credit points from the second semester of the degree programme's propaedeutic phase (less than 10 ECTS credit points in the case of a part-time programme). In all other respects, the provisions of Article 5.2 are correspondingly applicable.

**Article 5.4 – Extraordinary circumstances**

1. When deciding whether to issue a binding (negative) study advice, the Faculty Board will take a student’s extraordinary or personal circumstances into account at that student’s request. The Faculty Board can thereupon decide to modify the binding (negative) study advice threshold or postpone issuing a study advice. The student’s study behaviour is also taken into account in this assessment, as are the agreements that they have made with their study advisor and/or their study schedule, the timing of notifications concerning extraordinary circumstances, and the study results they achieved at the end of their first academic year.

2. Students must report extraordinary circumstances to the study advisor as soon as possible in order to ensure optimum support. In the likely event of deferred advice or a modification to the binding study advice threshold, the Faculty BSA Committee will rule on this matter, at the student’s request. If the study schedule drawn up with their study advisor is not met due to the binding study advice threshold (which may or may not have been modified), the student must notify their study advisor about this as soon as possible.

3. If no assessment can be made at the end of the first academic year with regard to a student’s suitability for the degree programme due to extraordinary circumstances as referred to Article 5.4.1, the assessment may only be postponed at the end of the first academic year of the propaedeutic phase.
4. Any study advice that is deferred can still be given as long as the propaedeutic phase has not yet been completed.
   a. The deferred advice is converted into positive advice if the binding study advice threshold (which may or may not have been modified) has been met.
   b. The advice will be negative (and binding) if the student in question still fails to pass the (possibly modified) binding (negative) study advice threshold in the propaedeutic phase.

5. All students whose study advice has been postponed (whether or not combined with an adaptation of their BSA threshold) are expected to draw up a study plan in consultation with their study advisor/mentor/assigned supervisor of the degree programme, comprising at least the following:
   a. the propaedeutic course units that have not yet been passed, with a relevant timeline;
   b. the post-propaedeutic course units that may be followed in addition to the course units listed under a.

6. Circumstances as referred to in Article 5.4.1 do not automatically lead to a successful application for a grant from the Graduation Fund.

**Article 5.5 – Procedure for issuing a definitive study advice**

1. The definitive study advice is issued by the Faculty Board on behalf of the Board of the University. The decision will also state the applicable safeguards of legal rights.

2. Before a binding (negative) study advice is issued, students will receive notice of the intention to issue one, after which they will be given the opportunity to put their case to the Faculty Board or its representative.

**Article 5.6 – Consequences of a binding (negative) study advice**

1. Students who have received a binding (negative) study advice may not register for the degree programme, or for any other degree programme in the cluster of related degree programmes listed in Appendix xxx, for a period of two years from 1 September of the next academic year.

2. Students who have been issued a binding (negative) study advice are not permitted to follow course units in this degree programme via a different degree programme or educational institution in order to avoid the consequences of their binding (negative) study advice. No exemptions will be granted for course units completed in this way, nor will such completed course units be recognized within the framework of the degree programme in any other way.

**Article 5.7 – Consequences of a positive study advice**

1. Anyone who has received positive study advice from a degree programme at the University of Groningen can be admitted to the post-propaedeutic phase of the relevant degree programme.

2. Notwithstanding Article 5.7.1, certain course units may be subject to the entry requirement that a previous course unit must have been successfully completed. This compulsory order of course units is set out in OCASYS and in Article 9.3 of these Teaching and Examination Regulations.
3. Admission does not apply to the degree programme’s Minor. The requirement here is that the full propaedeutic phase be completed.
