Climate Citizen Adaption Award 2021

Age category: **15-18 years**

Design a climate-proof city and win €500!

You're biking home from school and it's raining so hard that you can't see further than a metre ahead. The next day, it's so hot that you think you're going to melt and the city is like a greenhouse. Surely we can do something about this?

If you're between 15 and 18 years old, this is your chance to enter an idea for the Climate Citizen Adaptation Award 2021, which is being run by the University of Groningen/Campus Fryslân and Wetterskip Fryslân. Can you think of a way to reduce the risk of flooding and heat stress in a city? Design your own climate-proof city and win one of the three prizes (€500, 250 or 100)!

Participate?

Visit our website to see what you have to do, and then send in your entry **before 10 December 2020**. The competition is open to individuals and groups of a maximum of four. The prizes will be presented on Saturday 23 January 2021 in Leeuwarden.
