Climate Citizen Adaption Award 2021

Age category: **19-24 years**

Help to climate proof the Netherlands and win €1,000!

Our climate is changing. We are increasingly prone to excess rainfall, heat stress, periods of drought and flooding. How can we plan towns and cities in the Netherlands to keep the adverse effects of climate change to a minimum? Can you imagine the Netherlands as a climate-proof country by 2100? And if so, what would it look like?

If you're between 19 and 24 years old, enter the Climate Citizen Adaptation Award 2021 being run by the University of Groningen/Campus Fryslân and Wetterskip Fryslân. Sketch your idea of a climate-proof Netherlands and win one of the three cash prizes (€1,000, 500 or 250)!

Participate?

Visit our website to see what you have to do, and then send in your entry **before 10 December 2020**. The competition is open to individuals and groups of a maximum of four. The prizes will be presented on Saturday 23 January 2021 in Leeuwarden.
