

# How do you find a room in Groningen?

# Looking for a room?

## **wide and varied range of rooms**

Lefier offers a wide and varied range of more than 3,500 rooms for young people. We are one of the largest providers of accommodation for young people in the city of Groningen. Lefier has both self-contained and non-self-contained rooms for students and young professionals. Self-contained rooms have their own facilities, such as their own kitchen, shower and toilet. If you rent non-self-contained accommodation, you share these facilities with others. Our rooms are let unfurnished.

## **register with us**

If you are (going to be) studying in Groningen, you can register with Lefier as a student seeking accommodation. You can also register with us if you are a young professional. To register with us you must be at least 16 and under 30.

You can register with us through our website. There is a one-off registration fee of € 30.00.

## **applying for rooms**

The rooms currently available are shown on our website [www.lefier.nl](http://www.lefier.nl). To apply for a room you need to follow certain rules. These are also listed on our website.

## **housing allowance**

If you are living on a low income you may be eligible for a housing allowance. Your eligibility for housing allowance, and the amount to which you are entitled, depend on several factors, including the price of your rent and your income. To qualify for a housing allowance you must be at least 18 years old. In principle, you will only be issued a housing allowance if you are renting a self-contained room. However, some non-self-contained rooms are also eligible for a housing allowance. To find out if you are eligible for a housing allowance go to [www.toeslagen.nl](http://www.toeslagen.nl) or call the Tax Information Line on 0800 0543.
