Excelling at the frontiers of knowledge

Are you a full degree student and looking for an extra challenge? Would you like to broaden your knowledge in your own field, yet also expand your knowledge in general?

Then the Honours College is the place for you!
The Honours College provides talented and ambitious full degree students the opportunity to excel. You will learn to critically examine knowledge and you will be challenged to develop new insights and innovative ways of thinking!

The interdisciplinary Honours Programme is followed alongside your regular degree programme. Each faculty has an Honours faculty coordinator who can inform you about the programme and guide you!

**Bachelor programme**
- 45 ECTS
- Deepening and broadening course units
- Faculty programme alongside an interdisciplinary programme
- Talent development

**Selection procedure:**
- Starts at the end of your first semester
- Classes start in the second semester of your first year

**Master programmes**
- Leadership: making the difference!
  - 15 ECTS
- Explore the theme of leadership and the various aspects of it or
- High Tech Systems and Materials
  - 20 ECTS
- Focus on innovation with challenging real-life product development

**Application** Mid-September
