

Applied Mathematics: Admission with a HBO-diploma (Fast-track)

Admission to the MSc. Applied Mathematics, via a Fast-track programme, is only possible for students from NHL Stenden University of Applied Sciences, who follow the BSc. programme Applied Mathematics. These students need to follow a Pre-master's programme, for which it is possible to include one or a few course units in the HBO bachelor's programme. For more information about the programme, please download the pdf-document 'Pre-master Applied Mathematics'.
