Appendix XI Extra effort for obtaining a bachelor's degree in a closely related programme (article 9.3)

If a student desires to obtain a Bachelor's degree in a closely related degree programme (e.g. Physics, Applied Physics or Mathematics) the student has to make an extra effort of at least 45 ECTS. This has to be built up in the following way:

- 15 ECTS for a separate Bachelor's research project
- 30 ECTS of course units within the specific degree programmes

In exceptional cases the division of the 45 ECTS (e.g. 5 ECTS extra for a combined research project (total of 20 ECTS) and 40 ECTS of course units) is possible with approval of the Board of Examiners of Astronomy.

In case of the double degree of Physics and Mathematics the extra effort of at least 45 ECTS is met. This combined programme is officially defined as:

- 5 ECTS extra on a combined Bachelor's research project (total of 20 ECTS)
- 55 ECTS of course units within the specific degree programmes
