

Dear first-year students,

First of all, we would like to give you a warm welcome! We are happy to know you have chosen to become a part of the EES (Energy and Environmental Sciences) community at the University of Groningen. We hope you are as excited as we are to start this programme and get to know your fellow master students!

About Atmos

We are Atmos, the study association of EES, with membership open for all students of the University of Groningen involved in studies related to energy or the environment. It was founded in April 2019 and our mission is to provide students with an interest in energy, environment, and sustainability a platform in which they can develop themselves professionally, learn more about their field of interest, and broaden their network. We do so by organising social, educational, and career-related events. These range from a monthly social drink to soft-skill workshops and career days.

Being a member of Atmos, apart from the fun events, gives you access to additional study material for several subjects you will be taking during your masters. This is also done with the objective of helping you choose the best electives for your future career.

Introduction Events

On the 5th of September EES is hosting an introduction day, on which you will get more information from the programme coordinators. We are also present on this day with some fun activities and to provide you with more information on Atmos. As Atmos, we are also planning on hosting an introduction camp! This will most likely be the weekend after the introduction day. More information on this will follow later, but make sure to save the date!

Becoming a Member

You can become a member of Atmos by signing up on our website [here](#). Membership costs €10 per year. You can join all our events with a discount or even for free! We are always looking members for our committees and would love to have you! Atmos has several committees, you will hear more about these on the introduction day or you can look them up on the website. On the introduction day, you will also be able to sign up for these committees.

We look forward to seeing you at the introduction events! If you have any questions in the meantime, do not hesitate to contact us.

With kind regards,

The Candidate Board of Atmos:

Sander Vanca	<i>Chair & Commissioner of Educational Affairs</i>
Omaira Bischoff	<i>Vice-Chair & Treasurer</i>
Rianne Scholte	<i>Secretary & Commissioner of Internal Affairs</i>
Julia Hofma	<i>Commissioner of External Affairs & Sustainability Officer</i>
