

Welcome! We are the study association of Industrial Engineering and Management and we provide study support, personal development activities, career events and social activities for all of our members. Lugus has over 700 members from all tracks and years and is growing every year. Our association has **14** committees, consisting of over **90** active members, which organise social activities to relieve your stress and career events to give you a view on your future career.

We organise several introduction activities to provide all new Bachelor students with an exciting start of the year, such as the Introduction Weekend. But we do so much more! Your student life offers endless opportunities to get to know new people and develop yourself. Lugus can be of great use for this! These are the objectives of our association:

- To contribute to the broadening of the scientific education of its members. *The association organises activities such as symposia, excursions, conferences and handles the book sale for its members.*
- To promote bonding between students and the academic staff. *The association tries to achieve this through socials, (ski)trips, social and sporting activities and an introduction camp for first-year students.*
- To represent the interests of its members that relate to their studies or to their future employment. *This is done by organising Inhouse days, recruitment dinners and study support activities.*

Being an active member and thus being part of a committee of Lugus means that you quickly make new friends with whom you will organise awesome activities and boost your CV while you are at it! As a first year student you might be interested in organising the Active Members Weekend, the next Introduction Weekend or even the yearly Ski Trip!

Make sure to take a look at our website www.tbvlugus.nl for a complete overview of our exciting and diverse association! This is also the website where you can become a member of our association, which only costs 15 euro for your entire stay in Groningen, which you pay at the beginning of your study time.

Kind regards,
On behalf of the 21st board of TBV Lugus
Miche Sappia
