

MASE

Nijenborgh 4, Groningen

Room 5116.0339

Dear student,

MASE (Masters Association of Science and Engineering) is the study association for the masters Mechanical Engineering (ME), Science Education and Communication (SEC), Nanoscience, and Behavioural and Cognitive Neuroscience (BCN), at the Faculty of Science and Engineering at the University of Groningen.

We were established in 2019, and we aim to make your studies as fruitful and enjoyable as possible. We will organize social, cultural, career-orienting, networking, soft skills developing, and internationalization activities. You can think of workshops, quiz nights, outings, music or movie nights, and lectures from interesting companies and research institutes in the Netherlands. We most importantly provide a place for you to socialize with your fellow students after classes.

Membership costs 5 euros per year, a price for which you will get access to the activities and a voice in the social and career aspects of your master's education. You can sign up on our website at: <https://www.masegroningen.nl/become-a-member>

So join us and let us help you navigate your first year of your masters and fill it with success and some wonderful memories and experiences! If you have any questions, feel free to email us at info@masegroningen.nl

This year, there will be the opportunity for you to come follow an introductory course in Python with us this summer/at the beginning of the academic year. Depending on the participants, we will be tailoring it to your needs in terms of timing and subjects for this course. If you would like to make use of this opportunity, please let us know by sending an email to info@masegroningen.nl.

With our warmest wishes,

The third board of MASE 2021-2022
