

Welcoming Letter

Dear prospective student,

Welcome! We are 'De Chemische Binding', the study association for Chemistry & Chemical Engineering students. To further welcome you to the University, we organise several introduction activities to provide you with an exciting start of the academic year. This welcoming letter briefly describes all our introduction activities. Additional information about the **book sale**, the **introduction camp** and our **study association** is provided in separate documents in this introduction package.

Faculty Introduction Day

All introduction activities are organised by the study association 'De Chemische Binding', in cooperation with the degree programmes and the Faculty of Science and Engineering. Your programme will start on **Friday the 2nd of September** with the **Faculty Introduction Day**. Please note that it is **mandatory** for all new students to attend this day. During this day you will receive information regarding the Chemistry and Chemical Engineering bachelor's degree program, student experiences and more. Furthermore, you will be welcomed by the study association, you will be able to register for the study association (if you haven't done so already, more information on this in the Book Sale document) and there is a possibility to buy your lab coat and goggles. During this day you will also meet your mentor group.

Location

The general introduction talk about the degree programme by the academic advisor and deputy programme director will be done online and a link to the online environment will be provided later. The part where you will meet your mentor group will take place in person. This will be arranged at the [Chemistry/Physics building of the University of Groningen](#) (Nijenborgh 4). A map of the building is shown at the end of this document. Keep an eye on our [website](#), as you can find a more detailed schedule soon.

Signing up

Your presence at the Faculty Introduction Day is **mandatory**. Please sign up for this day here: [FID form](#) .

Introduction Camp

We are planning to organise an Introduction Camp (ICE camp)/Introduction Events for you in the beginning of September! You will receive more detailed information in a separate document soon. Also, keep an eye on the [website](#)! While presence at this camp is not mandatory, presence is strongly recommended.

In short

| |
|--|
| What? Faculty Introduction Day (mandatory for all first year students) & Introduction Camp for Chemistry and Chemical Engineering students (ICE camp). |
| When? Faculty Introduction Day: Friday September 2 nd 10:00 – ~16:00. ICE camp: TBD |
| How? Sign up at the website . |
| Questions? Please send them to board@chemische-binding.nl or ICE@chemische-binding.nl . Also check your spam box for any responses. |

See you soon!

With kind regards,
The Board of De Chemische Binding
