## GENERAL INFORMATION

**How can teachers identify and nurture children's talents in the classroom? How do athletes and musicians develop their talent? What are the best methods to select talented and creative employees, students, and athletes? And how can companies encourage creativity within their own organisation?**

In any achievement domain, there is an increasing focus on the development, selection, and promotion of talent and creativity. In this unique, internationally-oriented Master's programme you will develop the expertise to enable you to select, develop, and nurture talent and creativity in individuals and organisations across achievement domains. You will learn about the theoretical approaches to talent development and creativity, and you will be in contact with different organisations in the worlds of sport, business and education so you can learn about their policies on encouraging talent and creativity. As part of your MSc thesis you will carry out a research project, possibly combined with an internship, to investigate the development of talent and/or creativity in the achievement domain that interests you most.

### Career prospects
