

Study Association VIP

What is VIP?

VIP is the study association of psychology in Groningen. Here, you will get the chance to meet your fellow psychology students. During the year, VIP will organize both social and study-related activities for you to participate in. With VIP you can broaden your knowledge and get insight into different fields of psychology, but also build new friendships and create great memories!

Next to joining activities, you can also become an active member of VIP. This means joining one of our committees, structures or year representations. All of them contribute their bit by organizing activities like a skiing-trip, a hitchhiking contest, or even a big congress. Next to meeting and bonding with other active members, this will give you a great opportunity to learn something new and gain new skills next to your study!

As a VIP-member, you also get an online VIP sticker on our website with which you can get discount at various companies in the city. Take a look at the website www.vipsite.nl to see our partners and how much discount you get. Next to discounts at shops, you can also receive up to 15% discount on your study books!

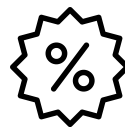

Expanding Knowledge

Broaden your knowledge and get insight into different fields of psychology by attending study- and career related activities

Meet New People

Make the best of your student time and get to know your fellow students by joining our social activities
