woningen moeten
worden aangepast

- More elderly & getting older
- Less working people
- Care and cure expensive
- Welfare state to 'civil society'
- *Support in own environment & give more with less*

THE CHALLENGE:

How to generate evolutive and innovative
apartments for people to live
AND age well AT HOME?

Conservation de son autonomie et en profiter pleinement

- Emménager dans un appartement aidant, aux espaces conçus pour des déplacements sécurisés qui facilitent l'aide ou les interventions, de ceux ou celles qui peuvent vous apporter leur soutien ou leur service.
- A toute heure du jour et de la nuit, un personnel qualifié est à votre écoute, capable de réagir et organiser la réponse appropriée à tout type d'incident.

DANS LES APPARTEMENTS ADAPTES ET EVOLUTIFS, il ne s'agit pas de "Bien Vieillir", il s'agit de "Bien Vivre".
