Part B contains degree programme-specific provisions which apply to the degree programmes in **Archaeology and Arts and Culture**, hereinafter referred to as 'the degree programmes', and the specialization in **Art History and Archaeology: Material Culture Studies in Art, Architecture & Archaeology**, hereinafter referred to as 'the specialization'.

## **Section 2 Admission**

  - a) Demonstrable knowledge of art history and/or archaeology at university Bachelor's level as shown by the curriculum followed, in addition to satisfying the following entry requirements:
  - b) sufficient proficiency of English to be able to follow the degree programme successfully<sup>1</sup>
  - c) sufficient knowledge, understanding and skills in the academic disciplines relevant to the degree programme<sup>2</sup>

### **Article 2.2 – Language requirement for foreign certificates**

2. The English language proficiency requirement will be met by passing an examination in English at the level of the VWO final exam, or by passing the TOEFL iBT with a score of at least 97 or an IELTS score of 7 or above.

### **Article 2.3 – Admission to specializations**

In addition to the provisions of Article 2.1, the following admission requirements apply to the various specializations in this degree programme: n/a

### **Article 2.4 – Registering for the admissions procedure**

Students register for the admissions procedure by submitting the following documents:

- b. a mark of 6 or above in university-entrance level English (VWO level).

- a letter outlining the prospective student's motivation for selecting the programme and specialization, including his or her expectations and interests
- if possible, written results of previous research, such as academic articles or a Bachelor's thesis
- two personal recommendations from relevant experts<sup>3</sup>
- other documents, if required, which in the opinion of prospective students will highlight their eligibility for the programme and specialization.

### **Article 2.5 – Admissions procedure for the degree programme**

1. Bearing in mind the admissions procedure for the degree programme and the specialization within the meaning of Article 2.1.1, the Admissions Board will assess the knowledge and skills of the candidate. The Admissions Board will assess the written documentation and determine whether the prospective student can be admitted directly to the programme and the specialization. In the event of doubt, the student will be invited to an admissions interview. The interview will be based on the submitted written documentation and may comprise an approx. 15-minute presentation on an academic subject related to the chosen programme.
2. If, on the basis of the submitted documentation, the Board is of the opinion that the student does not qualify for admission and that there is therefore no need for an interview, the student will be notified accordingly before 15 June. This is a *provisional* decision only. Prospective students may still request an interview, provided they do so within 15 working days. If prospective students do not avail themselves of this option, the provisional decision will become *definitive*. In the case of prospective students who are granted an interview, a formal decision will not be made until after the interview has taken place. Rejections will in all cases be substantiated in writing. Students who have been interviewed will be notified by 15 July whether or not they have been accepted.<sup>4</sup>
3. Students who have not yet obtained their Bachelor's degree at the time of the selection procedure but who would normally do so before the Research Master's degree programme begins may be granted provisional admission. This is based on the assumption that they a) obtain their Bachelor's degree in time and b) have written a BA thesis with the required level to follow the Research Master.
4. Students who already have a relevant university Master's degree may also apply for admission to the degree programme and the specialization. The procedure as set out above will also apply to them. If they are admitted, the Board of Examiners will decide whether they can be granted exemptions on the basis of that Master's degree (up to a maximum of 60 ECTS credit points).

### **Article 2.6 – Entrance examination: times**

1. The entrance examination will be held twice a year. Requests for admission to the degree programme and the specialization starting in the first semester must be submitted to the Admissions Board before 1 March (non-EU students) or 1 May (EU students). Requests for admission starting in the second semester must be submitted to the Admissions Board before 15 October.
2. The Admissions Board may decide to consider a request at a time other than that referred to in Article 2.6.1.
3. The Admissions Board will decide before 15 June, respectively 15 December for admission in the second semester. Admission will be on condition that the candidate has satisfied the requirements set out in Article 2.4 concerning knowledge and skills by the starting date of the degree programme at the latest, supported by certificates from the degree programmes followed. The written admission statement will include information for the student about the possibility of an appeal to the Board of Appeal for Examinations.

---

<sup>3</sup> These are written reports from people recognized as experts by the Admissions Board that present a useful and reliable picture of the student's eligibility for the degree programme.

<sup>4</sup> Proof of admission is discussed in Article 7.30b of the Higher Education and Research Act.
