Visibility

Where the content can be seen.

Visibility*

Public – No restriction	E.g. website/portal (e.g. rug.nl)
Campus – Restricted to specific IP range	From allowed IP-addresses (e.g. RUG campus)
Backend – Restricted to Pure users	Only visible when logged into Pure (e.g. pure.rug.nl/admin)

Example

3D-printed teeth that clean themselves

<http://www.dnaindia.com/scitech/report-3d-printed-teeth-that-clean-themselves-2141155>

The screenshot shows a news article on the DnA website. The article title is "3D-printed teeth that clean themselves" with a sub-headline "Researchers from the University of Groningen have created 3D printed teeth that kill bacteria." The article text describes a team of researchers from the University of Groningen in the Netherlands who have developed 3D-printed teeth that are not only sparkling white but also clean themselves. It mentions Andreas Herrmann and his colleagues who have developed an antimicrobial resin.

On the right side of the screenshot, there is a "Driver update" notification from WinZip@ Driver Updater and a "RECOMMENDED ARTICLES" section with several article thumbnails and titles, such as "Indian team bags 10 medals in Asian Grand Prix Athletics" and "UK town in 'utter shock' over teen suicide bomber's death".

Submission of Press/Media in Pure

Type		
Type*	Research	In this piece research of Andreas Herrmann is mentioned
Description		
Title of theme/story*	3-D printed teeth with bacteria killing resin	Short description of the article (not the original title)
Description	-	Optional short description of the article
Details of Media contribution and Media coverage
