

NGG conference 2019: Religion and the Production of Difference

30, 31 October, 1 November 2019

We are happy to welcome you to the city of Groningen: the most northern city of the Netherlands. It is known as a thriving university town, with one of the youngest populations in Europe, building on a long and proud history as a Hanze trading city. All about the city you will be residing in for the length of the 2019 NGG conference you can find on groningen.nl.

Here we will specifically mention some options for accommodation in Groningen that you can book yourself. You could also have a look on booking.com or any other website for arranging accommodation, since prices tend to differ from day to day. Besides the mentioned list of hotels, we could recommend you to have a look on Airbnb if you rather pay less and rent a room (with for example shared kitchen and/or bathroom) instead of a private hotel room.

Please contact us at ngg2019@rug.nl if you have question or want to check the price, quality or location of your accommodation.
