

Andy leads the UK contribution to the Synthetic Biology ERA-NET ([ERASynBio](#)) on behalf of the Biotechnology and Biological Sciences Research Council (BBSRC). He manages the coordination of Work Packages 1 (Mapping and Strategy) and 5 (Data and Infrastructure), and leadership of tasks on joint funding calls, and training and education. Outside of the ERA-NET, Andy has contributed to national and international Synthetic Biology policy development at BBSRC including the [UK Synthetic Biology Roadmap](#).

Prior to his current role, Andy worked within the International Relations Unit at BBSRC. He was responsible for BBSRC's international collaborative schemes, coordinated BBSRC's interaction with South-east Asia and worked on collaborative initiatives with the EU, the US, Brazil, and Japan.

Andy joined BBSRC after completing a viral oncology PhD at the Birmingham Cancer Research UK Centre and undergraduate studies in medical sciences at the University of Leeds.
