2. Finances

Travel and Material Costs

The budget for CLCG travel and material costs, intended for regular members of the CLCG, covers staff travel abroad and organization of conferences, workshops and other meetings with a scientific character. In 2018, the annual financial support from the Faculty of Arts amounted to € 30.000,00. In the reporting period the amount of € 39.641,32 was spent. From the total amount € 37.107,00 was spent by stafmembers for to cover (foreign) travelcosts.
3. Individual Academic Research Output per Research Group

Output indicators:

1 Academic Publications

- Article
- Book
- Book editing
- Conference contribution (proceedings)
- Chapter
- Doctoral Dissertation
- Paper
- Scientific review

2 Academic Presentations

- Poster
- Presentation
- Invited talk

3 Other Academic Research Activities (and Engagement)

- Awards and prizes
- Contribution to the work of national or international committees and working groups
- Conference chair
- Editorial activity (special issue editing)
- Hosting academic visitor
- Invited talk (at external research organization)
- Membership of external research organization
- Membership of peer review panel or committee
- Organization of conference, workshop, seminar, course
- Supervision of PhD students?
- Teaching a course at an academic institution or organization

5. Conferences, Meetings, and Visitors

5.1 International meetings organized in Groningen

CLCG members organized the following international meetings in Groningen in 2018:

38st TABU Dag, June 22-23

TABU Dag is an annual conference on linguistics, organized by PhD candidates and a senior advisor of the CLCG. TABU Dag originated from the university’s linguistic journal TABU (taalkundig bulletin, linguistic bulletin) and over the last 37 years has developed into a well-established conference with a varied program and guest speakers from different fields. TABU Dag 2018 was held on June 14th & 15th. The members of the organizing committee of TABU Dag 2018 were:

- Marita Everhardt (Committee chair)
- Aida Salcic (External Affairs)
- Dorothee Hoppe (PR)
- Masha Medvedeva (Homepage and Social Media)
- Yiaoyu Bai (Secretary)
- Miguel Santin (Treasurer & PR)
- Martijn Wieling (Senior Staff)

Five keynote speakers were invited:

- Barbara Partee (University of Massachusetts Amherst),
  
  Talk: Lexical Semantics in Formal Semantics: History and Challenges
- Felix Hill (DeepMind)
  
  Talk: End-to-End Grounded Language Learning in Simulated Worlds
- Sidney Segalowitz (Brock University)
  
  Talk: The Meaning of “Meaning” as a Cortical Process
- Paul Warren (Victoria University of Wellington)
  
  Talk: Psycho-socio-phonetics: dynamism in language processing
- Amie Fairs (Max Planck Institute for Psycholinguistics, The Netherlands)
  
  Talk: How to make your work accessible, why it’s important (& why you should do it)

Like in the previous year, all sessions were plenary, which means that each presenter had the chance to speak 2-3 minutes in front of the entire audience to introduce their research. In comparison to a programme with parallel sessions, this means that there is no need for the audience to move rooms between talks, and that presenters are guaranteed the full attention of all conference attendees. In addition, there is more time and space devoted to posters, which invites a deeper exchange about the research.

The organizers registered 115 participants and 63 poster/flash presentations were given.
The poster theme was promoted with cash prizes of up to €170 for the best posters. The best poster awards were given to:

- Joanna Porkert (sessie A)
- Ann-Katrin Ohlerth (sessie B)
- Rahel Verbree (sessie C)
- Merel van Witteloostuijn (sessie D)

Maps summer school
From 9-13 July the MAPS (Multiple Approaches to the Perception of Speech) Summer School took place at UG. Simone Sprenger was member of the organizing committee. Focus of the school was the study of speech perception engages different disciplines, emphasizing its sensory, cognitive, or societal aspects. MAPS aims to promote and develop skills in conducting speech perception research combining multiple approaches. The summer school was intended for Research Master students, PhDs, MdPhD and practitioners with coursework or research experience with speech, hearing or language.

“You don’t hear the difference between bad and bed? Rather than a hearing problem, this is a problem of speech perception.” During the MAPS summer school, the participants explored how our experience, language, age, social network and physical environment shape our perception of speech. From a multi-disciplinary perspective, they will looked into how speech perception is sustained in cortical and subcortical networks, how speech is coded (in the ear and in cochlear implants), and how speech perception research can be designed to capture the sensory, cognitive and social aspects of speech.

5.2 Local conferences, cooperation, and colloquia
CLCG was centrally involved in several other local workshops, symposia, seminars, and discussion groups.

Groningen Syntax Workshop
On 17 June 2018, Bernat Bardagil-Mas and Charlotte Lindenbergh organized the Groningen Syntax workshop. The Groningen Syntax Workshop brings together scholars with an interest in current research in syntax with the goal of providing an informal setting for the discussion of several issues concerning syntactic theory. The presentations by guest speakers will cover a variety of topics of current relevance in the generative framework:

- Jan-Wouter Zwart (Groningen) - Deriving order and structure
- Anikó Lipták (Leiden) - Hungarian particle reduplication as head copying
- Omer Preminger (Maryland) - How to tell a syntactic phenomenon when you see it
- Hedde Zeijlstra (Göttingen) - Another operation
Once upon a time...Semantic approaches to fiction, literature, and narrative
On September 17-18, 2018, Emar Maier, Sofia Bimpikou and Merel Semeijn organized the workshop ‘Once upon a time...Semantic approaches to fiction, literature, and narrative’. [...] The (apparent) difference between the interpretation of fiction and of non-fiction already raises interesting linguistic questions: How does a reader even know that a text is fiction? Are there linguistic clues an author may leave that mark a given text as such? And is our formal semantic toolkit, developed for dealing with assertions in every day communication, suitable and sufficient for dealing with the peculiarities of narrative fiction and literary style?

In this workshop we want to bring together linguists and philosophers interested in applying formal semantic tools to linguistic phenomena characteristic of fiction/narrative. Examples of questions we would like to address include:

- Are there languages with dedicated markers of fiction or story-telling (e.g. "fiction-evidentials")?
- What exactly are so-called historical/narrative uses of present tense? Are there other tense/aspect/mood configurations characteristic of narrative?
- What is the role of imagination in the semantics of fiction?
- Conversely, what is the role of the usual foundational semantic concepts like truth, reference, truth-conditions, and common ground?
- Can/should we distinguish fiction and non-fiction at a discourse level, e.g. in terms of discourse structure, coherence relations etc.?
- How to model free indirect discourse and other forms of perspective shifting, and to what extent are these constructions characteristic of narrative fiction?
- What is the role of (direct) speech/thought representation in literature?
- How can we model different types of narration/narrators (omniscient third person, first/second person narration, unreliable narrators) semantically?
- Can we push our semantics beyond literary/textual narrative to e.g. oral storytelling, comics, picture books, movies, or narrative music/dance?

Invited speakers were:
- Márta Abrusán (Paris)
- Stefan Hinterwimmer (Köln)
- Hans Kamp (Austin/Stuttgart)
- Alessandro Zucchi (Milan)

Workshop: Case and agreement in Panará (...and beyond)
On Thursday, September 20, 14.30 - 17.15 Bernat Bardagil organized a workshop on the occasion of his PhD defence.

Speakers were:
- Bernat Bardagil - Panará verbal morphology and its interaction with syntactic ergativity
- Jan-Wouter Zwart
- Matt Coler - Case inflection and lexically-specified vowel deletion in Aymara
**Linguistics Colloquium**

The CLCG colloquia are held monthly, unusually on Thursday from 12:10 to 12:45 (talk starts at 12.15). Organization: Remco Knooihuizen, Barbara Plank, Emar Maier, Hanneke Loerts, Ielka van der Sluis.

**Linguistics Lunches**

Linguistics Lunch meetings take place monthly, on Thursdays from from 12.00 till 12.45. From 12.00 - 12.15 there is a walk-in with coffee/tea and homemade cake followed by two presentations from CLCG members about their ongoing research. Organization: Anna Pot, Martijn Wieling, Veerle Baaijen, Merel Keijzer, Simone Sprenger, Hanneke Loerts, Eva Juarros Daussa. Contact Anna Pot a.pot@rug.nl The meetings are open for everybody.
### Other lectures and discussion groups

5.3 Conferences, Symposia and workshops organized elsewhere

**AREA Workshop on Annotation, Recognition, Evaluation of Actions**
Ielka van der Sluis was organizer of the AREA Workshop on Annotation, Recognition, Evaluation of Actions at LREC 2018 at Miyzaki, Japan, 7-12 May 2018. (co-organized with James Pustejovsky (Brandeis University). The first AREA workshop will take place in conjunction with the 11th edition of the Language Resources and Evaluation Conference (LREC 2018) and is organized as a half-day session with plenary talks, posters and demonstrations. About the theme: “There has recently been increased interest in modeling actions, as described by natural language expressions and gestures, and as depicted by images and videos. Additionally, action modeling has emerged as an important topic in robotics and HCI. The goal of this workshop is to gather and discuss advances in research areas in which actions are paramount e.g., virtual embodied agents, robotics, human-computer communication, as well as modeling multimodal human-human interactions involving actions. Action modeling is an inherently multi-disciplinary area, involving contributions from computational linguistics, AI, semantics, robotics, psychology, and formal logic, with a focus on processing, executing, and interpreting actions in the world from the perspective defined by an agent’s physical preference.” (http://www.areaworkshop.org/).

The keynote lecture about “Language, Action, and Perception” was held by Simon Dobnik (University of Gothenburg).

**Round table discussion: Naar een onderzoeksagenda voor genre & genrecompetenties**
On 25 mei, Ninke Stukker (together with Wilbert Spooren, Radboud University Nijmegen) organized a round table discussion that took place at Utrecht University for the convenience of the participants. The goal of the event was to discuss about a research agenda on the theme of discourse genre. In view of the societal importance of the concept of discourse genre and the amount of (descriptive) research that has been devoted to it, it is surprising to find that we hardly know how genres operate from linguistic, discoursal and cognitive points of view. The three main themes of the meeting were: 1) Genre theory: issues and problems, 2) Research methods: wishes and new possibilities, 3) Genre in practice: what can science contribute? The results of the meeting (among other things) will be included in a proposal for a Lorentz workshop by the organizers.

7. PhD Training Program 2018 & Postdocs

Graduate students and postdocs are responsible for a good deal of the day-to-day work of CLCG, including the organization of the meetings of the research groups, the organization of the CLCG colloquia, the organization of the CLCG Linguistics Lunches, the publishing of the weekly CLCG calendar, and the organization of the annual CLCG TABU Dag. The graduate students were represented on the CLCG advisory board by Aida Salçic who was replaced by Leanne Nagels.

In 2018, nine new PhD projects started, 1 in the Computational Linguistics group, 2 in the Discourse & Communication group, 5 in the Neurolinguistics and Language Development group and 1 in Theoretical & Empirical Linguistics group.
