university of  
 groningen

faculty of spatial sciences

university of  
 groningen

faculty of economics  
 and business

SPATIAL  
ECONOMETRICS  
ASSOCIATION

**FEB Research Institute**

## SEA conference 2024

Fifty years ago the Dutchman Jean Pealinck introduced the term “Spatial Econometrics (see [en.wikipedia.org/wiki/Spatial\\_econometrics](https://en.wikipedia.org/wiki/Spatial_econometrics)). We want to celebrate this anniversary by looking back and forward fifty years at the XVIII World Conference of the Spatial Econometrics Association (SEA 2024) to be held in Groningen, the Netherlands.

### During this conference you will:

- Receive individualized feedback from peers and experts on your paper
- Get inspirations from the latest development in spatial econometrics
- Extend your network with scholars that have similar methodological interests

### Key notes

**Xiaodong Liu**

Professor of  
Economics, University  
of Colorado Boulder,  
United States

**Xi Qu**

Associate Professor of  
Economics, Shanghai Jiao  
Tong University, China
