

University of Groningen

Assistant or Associate Professor of Molecular Genetics

The Faculty of Science and Engineering at the University of Groningen is seeking to appoint a new Assistant or Associate Professor of Molecular Genetics to strengthen and further develop research and education within the Groningen Biomolecular Sciences and Biotechnology Institute (GBB). The University of Groningen is one of the oldest and largest in the Netherlands and is ranked within the global top 100. The University is truly global and has strong collaborations with many renowned international academic centres.

The [Groningen Biomolecular Sciences and Biotechnology Institute \(GBB\)](#) is a centre for top noted research and teaching in biomolecular sciences, focusing on curiosity-driven science, with application outlets into (industrial) biotechnology and biomedicine. The institute centres around the two focal areas 'Molecular Mechanisms of Biological Processes' and 'Physiology and Systems Biology' and has world-leading research groups in various areas of experimental and computational biology and chemistry.

The Institute is now looking to appoint an Assistant or Associate Professor who will make a major contribution to the field of molecular genetics. The new Faculty member is expected to develop an independent research line in genetics addressing one or more important biological topic(s), and to develop or exploit the rapid developments in methodology and technology in molecular genetics. The research line should become independent and be centred on solving challenging biological topics and result in the further strengthening of the international position of GBB.

An executive search exercise is being undertaken by Perrett Laver to assist the recruitment committee. Perrett Laver may be contacted for informal enquiries and questions on Laura.Stuart@perrettlaver.com or +44 (0)20 7340 6229. Applications can be uploaded at www.perrettlaver.com/candidates, quoting reference 3387. The closing date for contacting Perrett Laver is 9am CET on Friday 9th February 2018.

The University of Groningen has adopted an active policy to increase the number of female scientists across all disciplines of the university. Therefore, female candidates are especially encouraged to apply.
