PROEFSCHRIFT

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op
Maandag 2 december 2019 om 16.15 uur

Door:

Egidia Christina van Beek

Geboren op 27 juli 1985 te Eindhoven

Promotores:

Prof. dr. T.W.L. Scheeren

Prof. dr. M.M.R.F. Struys

Prof. dr. J.C.C. van der Horst

Beoordelingscommissie:

Prof. dr. J.E. Tulleken

Prof. dr. W.F. Buhre

Prof. dr. M.L. Bots

Table of contents

1.	General introduction	7
<hr/>		
PART I Optimizing the use of troponin as a marker for excessive myocardial damage after cardiac surgery		
<hr/>		
2.	Implementation of the third universal definition for myocardial infarction after coronary artery bypass grafting in Western Europe	19
3.	How typical is the typical rise and fall of troponin in (peri-procedural) myocardial infarction	35
4.	Improving the use of troponin to assess the risk for mortality after cardiac surgery: a retrospective cohort study	57
<hr/>		
PART II The role of albumin in myocardial dysfunction in the intensive care unit		
<hr/>		
5.	Albumin, a marker for postoperative myocardial damage	75
6.	Predictive value of serum albumin levels at ICU admission in a mixed ICU population on noradrenaline and fluid requirements in the first 24 hours	91
7.	Low serum albumin and new-onset atrial fibrillation in the ICU: a prospective cohort study	107
8.	Validation of serum albumin as a prognostic marker in the intensive care unit: a SICS-I sub-study	117
<hr/>		
Appendix		
<hr/>		
9.	Summary and general discussion	131
10.	Acknowledgements Dankwoord	145
11.	About the author	149
