Sorting out cholesterol metabolism

Novel insights into the mechanism of endosomal
trafficking of lipoprotein receptors

Marthe Elise Wijers

The research described in this thesis was conducted at the Department of Pediatrics, section Molecular Genetics, University Medical Center Groningen, the Netherlands. This work was financially supported by the Netherlands Organization for Scientific Research (NWO-ALW grant no. 817.02.022 to BVDS), EU FP7 project TransCard (FP7-603091-2), the Jan Kornelis de Cock Stichting, the Graduate School for Drug Exploration (GUIDE), and the University of Groningen.

The printing of this dissertation was financially supported by:
University of Groningen, Groningen, The Netherlands
University Medical Center Groningen, Groningen, The Netherlands
Groningen University Institute of Drug Exploration (GUIDE)

Cover design: Celine Derks
Book layout: Melinde Wijers
Printed by: Ridderprint BV
ISBN: 978-94-034-2110-0 (printed version)
ISBN: 978-94-034-2109-4 (digital version)

Sorting out cholesterol metabolism

Novel insights into the mechanism of endosomal
trafficking of lipoprotein receptors

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 20 november 2019 om 11.00 uur

door

Marthe Elise Wijers

geboren op 20 november 1989
te Groningen

Promotores

Prof. dr. A.J.A. van de Sluis

Prof. dr. J.A. Kuivenhoven

Beoordelingscommissie

Prof dr. S.C.D. van IJzendoorn

Prof. dr. H.H. Kampinga

Prof. dr. N. Zelcer

Contents

Chapter 1	General introduction.....	7
Chapter 2	The life cycle of the low-density lipoprotein receptor: insights from cellular and in-vivo studies.....	25
Chapter 3	News on the molecular regulation and function of hepatic low-density lipoprotein receptor and LDLR-related protein 1.....	39
Chapter 4	The COMMD family regulates plasma LDL levels and attenuates atherosclerosis through stabilizing the CCC complex in endosomal LDLR trafficking.....	55
Chapter 5	The hepatic Wiskott-Aldrich syndrome protein and SCAR homologue (WASH) complex is required for efficient clearance of plasma LDL and HDL cholesterol.....	103
Chapter 6	Perturbed lysosomal architecture and localization in liver-specific WASH-deficient mice does not affect hepatic cholesterol and bile acid metabolism.....	135
Chapter 7	General discussion.....	153
Appendices	Summary.....	170
	Nederlandse samenvatting.....	173
	Acknowledgements.....	177
	List of publications.....	182
	Curriculum vitae.....	184
