Epidemiology, genetic diversity and clinical manifestations of arboviral diseases in Venezuela

Erley Ferlipe Lizarazo Forero

This PhD project was performed at the Institute of Biomedical Investigation "Dr. Francisco J. Triana Alonso" within the University of Carabobo (Biomed-UC), Venezuela and at the Department of Medical Microbiology and Infection Prevention of the University Medical Center Groningen (UMCG), University of Groningen, The Netherlands.

This work was supported by the Fondo Nacional de Ciencia y Tecnología e Innovación (FONACIT), grant 201100129, 201300201; by the Coordinación de Aplicación de Fondos e Incentivos para el Desarrollo de Planes de Ciencia, Tecnología e Innovación, Organic Law of Science, Technology and Innovation (LOCTI), certification No DGCAFIDCTI/204-214-10, of the Venezuelan Ministry of Science, Technology and Innovation, Venezuela. E. F. Lizarazo Forero received an Abel Tasman Talent Program grant of the Groningen University Institute for Drug Exploration (GUIDE) and financial support from the Department of Medical Microbiology and Infection Prevention, UMCG, University of Groningen, Groningen, The Netherlands.

The printing of this thesis was financially supported by:

ISBN:

978-94-034-2168-1 (Printed book)

978-94-034-2167-4 (Digital)

Cover design:

Maria F. Vincenti-González / Erley Lizarazo

Cover Illustrations

Wright-Fisher Haploid Model / Dengue structure model from Protein Data Bank

Design/Layout:

Ioana Margineanu / Erley Lizarazo

Print:

IPSKAMP printing

Epidemiology, genetic diversity and clinical manifestations of arboviral diseases in Venezuela

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. C. Wijmenga
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on
Wednesday 11 December 2019 at 14.30 hours

by

Erley Ferlipe Lizarazo Forero

born on 5 December 1987
in La Fría, Venezuela

Supervisors

Prof. J.W.A Rossen
Prof. A.W. Friedrich

Co-supervisor

Dr. A. Tami
Dr. M.E. Grillet

Assessment Committee

Prof. P. Mayaud
Prof. M. de Jong
Prof. J.M. Smit

Paranymphs

Paola Lisotto
Erwin Raangs

Table of contents

Chapter 1	General Introduction and Scope of the Thesis	9
Chapter 2	Spatial dynamics of chikungunya virus in Venezuela: The first six months of the epidemic	29
Chapter 3	Concomitant chikungunya and dengue epidemic in Carabobo State, Venezuela 2014: a study on epidemiological development, clinical manifestations and risk factors	63
Chapter 4	Applied shotgun metagenomics approach for the genetic characterization of dengue viruses	89
Chapter 5	Complete coding sequences of five dengue virus type 2 clinical isolates from Venezuela obtained through shotgun metagenomics	117
Chapter 6	DEN-IM: Dengue virus identification from metagenomic and targeted sequencing data	123
Chapter 7	Evolutionary history and population dynamics of dengue viruses in Venezuela	157
Chapter 8	Summarizing Discussion	193
Appendix	Thesis summary	210
	Nederlandse Samenvatting	214
	Informed Consent and Survey Instruments	218
	Acknowledgments	242
	Curriculum Vitae	246
