Preconception environmental factors and placental morphometry in relation to pregnancy outcome

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

maandag 27 januari 2020 om 16.15 uur

door

Nastaran Salavati

geboren op 28 december 1991
te Rhenen

CONTENT

1.	General introduction	9
Part I: Preconception environmental factors and pregnancy outcome		21
2.	The association of air pollution with congenital anomalies: an exploratory study in the Northern Netherlands <i>Salavati N., Strak M., Burgerhof J.G.M., De Walle H.E.K., Erwich J.J.H.M. International Journal of Hygiene and Environmental Health, 2018; 1061-1067</i>	23
3.	Cohort Profile: The Dutch Perined-Lifelines birth cohort <i>Salavati N., Bakker M.K., Van der Beek E.M., Erwich J.J.H.M. (PLOS ONE: in press)</i>	47
4.	Association of preconception macronutrient intake with birth weight across strata of maternal BMI in a linked population-based birth cohort <i>Salavati N., Bakker M.K., Lewis F., Vinke P.C., Mubarik F., Erwich J.J.H.M., Van der Beek E.M. (Submitted)</i>	75
5.	The association of food groups and birth weight: analyses in Perined-Lifelines linked birth cohort <i>Salavati N., Vinke P.C., Lewis F., Bakker M.K., Erwich J.J.H.M., Van der Beek E.M. (Manuscript in preparation)</i>	105
Part II: Placental development and pregnancy outcome		123
6.	The relationship between human placental morphometry and ultrasonic measurements of utero-placental blood flow and fetal growth <i>Salavati N., Sovio U., Plitman Mayo R., Charnock-Jones D.S., Smith G.C.S. Placenta, 2016;28:41-48</i>	125
7.	Birth weight to placenta weight ratio and its relationship to ultrasonic measurements, maternal and neonatal morbidity: A prospective cohort study of nulliparous women <i>Salavati N., Gordijn S.J., Sovio U., Zill-E-Huma R., Gebril A., Charnock-Jones D.S., Scherjon S.A., Smith G.C.S. Placenta, 2018; 63:45-52</i>	149
8.	The possible role of placental morphometry in the detection of fetal growth restriction <i>Salavati N., Smies M., Ganzevoort W., Charles A.K., Erwich J.J.H.M., Plösch T., Gordijn S.J. Frontiers in Physiology, 2019; 9:1884</i>	171
9.	General discussion	197
