Functioning beyond pediatric burns

physical activity, fatigue, and exercise capacity
up to 5 years post burn

Moniek Akkerman

This thesis is a product of a close collaboration between:

- The Association of Dutch Burn Centers, Burn Center Groningen, Martini Hospital Groningen
- The Center for Human Movement Sciences, University of Groningen, University Medical Center Groningen
- The Child Development and Exercise Center, Wilhelmina Children's Hospital, University Medical Center Utrecht

The studies regarding pediatric burns were financially supported by the Dutch Burns Foundation.

PhD training was facilitated by the Research Institute School of Health Sciences (SHARE), part of the Graduate School for Medical Sciences Groningen.

The printing of this thesis was financially supported by:

- Stichting Brandwonden Research Instituut / HUMECA
- ProCare B.V.
- Lode B.V.
- The Dutch Burns Foundation
- Research Institute School of Health Research (SHARE)
- University of Groningen
- University Medical Center Groningen
