Implementing Dried Blood Spot sampling in transplant patient care

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. C. Wijmenga
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

maandag 24 februari 2020 om 12.45 uur

door

Herman Veenhof

geboren op 19 februari 1989
te Apeldoorn

Promotores:

Prof. dr. D.J. Touw
Prof. dr. S.J.L. Bakker
Prof. dr. S.P. Berger
Prof. dr. J.W.C. Alffenaar

Beoordelingscommissie:

Prof. dr. J.H. Beijnen
Prof. dr. B. Wilffert
Prof. dr. T. van Gelder

“Look,
there are two kinds of people,
those who talk,
and those who act.”
Peter ‘Ouwe’ Veenhof

Table of contents

Chapter 1	9
Introduction and outline	
Chapter 2	19
Validation of a dried blood spot assay for the determination of five immunosuppressants, without hematocrit correction, on two different LC-MS/MS systems <i>Bioanalysis. 2017 Apr;9(7):553-563.</i>	
Chapter 3	37
Clinical Validation of Simultaneous Analysis of Tacrolimus, Cyclosporine A and Creatinine in Dried Blood Spots in Kidney Transplant Patients <i>Transplantation. 2017 Jul;101(7):1727-1733</i>	
Chapter 4	53
Clinical Application of a Dried Blood Spot Assay for Sirolimus and Everolimus in Transplant Patients <i>Clin Chem Lab Med. 2019 Nov 26;57(12):1854-1862.</i>	
Chapter 5	71
Quality Assessment of Dried Blood Spots from Tuberculosis Patients from Four Countries <i>Ther Drug Monit. 2019 Dec;41(6):714-718</i>	
Chapter 6	85
Performance of a web-based application measuring spot quality in dried blood spot sampling <i>Clin Chem Lab Med. 2019 Nov 26;57(12):1846-1853</i>	
Chapter 7	101
Effects, costs and implementation of monitoring kidney transplant patients' tacrolimus levels with Dried Blood Spot sampling: a randomized controlled trial hybrid implementation trial <i>Submitted</i>	

Chapter 8	121
Official International Association for Therapeutic Drug Monitoring and Clinical Toxicology guideline: Development and Validation of Dried Blood Spot-based Methods for Therapeutic Drug Monitoring <i>Ther Drug Monit. 2019 Aug;41(4):409-430</i>	
Chapter 9	167
A Volumetric Absorptive Micro Sampling LC-MS/MS method for five immunosuppressants and their hematocrit effects <i>Bioanalysis. 2019 Mar;11(6):495-508.</i>	
Chapter 10	189
Volumetric Absorptive Micro Sampling and Dried Blood Spot Micro Sampling versus Conventional Venous for Tacrolimus Trough Concentration Monitoring <i>Submitted</i>	
Chapter 11	209
General discussion and future perspectives	
Summary	221
Samenvatting	227
