Light upon seasonality

Seasonality of symptoms in the general population and in patients with depressive and anxiety disorders

Wim Winthorst

The infrastructure for the NESDA study and the HND study are gratefully acknowledged.

The infrastructure for the NESDA study (www.nesda.nl) is funded through the Geestkracht program of the Netherlands Organisation for Health Research and Development (ZonMw, grant number 10-000-1002) and financial contributions by participating universities and mental health care organizations (Amsterdam University Medical Centers (location VUmc), GGZ inGeest, Leiden University Medical Center, Leiden University, GGZ Rivierduinen, University Medical Center Groningen, University of Groningen, Lentis, GGZ Friesland, GGZ Drenthe, Rob Giel Onderzoekscentrum).

The research project HowNutsAreTheDutch (www.HowNutsAreTheDutch.com / www.hoegekis.nl) is a widely broadcasted national crowdsourcing study in the Netherlands collecting self-report data on mental health in a general population sample. The work was funded by VICI grant # 91812607 received by Peter de Jonge from the Netherlands Organization for Health Research Development (ZonMW; www.zonmw.nl).
