Summary table of content........................................................................................................ i

Detailed table of content........................................................................................................ iii

Acknowledgments ................................................................................................................... vii

1. Introduction ....................................................................................................................... 1
   1.1 Professional behavior: auditors providing a deeper understanding .............................. 2
   1.2 Cross-national cultural differences: driving subjective interpretation and personalized behavior ........................................................................................................... 5
   1.3 The focus of this study: the impact of culture on behavior ............................................. 7
   1.4 Research questions, strategy, and objectives ................................................................. 9

   2.1 Introduction ................................................................................................................. 13
   2.2 What is professional behavior? ..................................................................................... 14
   2.3 The behavior of assurance professionals ...................................................................... 17
   2.4 Auditors’ professional behavior .................................................................................... 27
   2.5 National culture in the context of the drivers of professional behavior ....................... 44
   2.6 Summary and conclusion .............................................................................................. 68

3. Cross-national Cultural Differences .............................................................................. 71
   3.1 Introduction .................................................................................................................. 71
   3.2 What are national cultures? .......................................................................................... 72
   3.3 House et al.’s cultural dimensions further illustrated ................................................... 79
   3.4 Levels, layers, and convergence of cultures .................................................................. 86
   3.5 Summary and conclusion .............................................................................................. 91

4. Loop One: Cross-National Cultural Difference in Auditors’ Professional Behavior – A Grounded Theory ................................................................. 93
   4.1 Introduction .................................................................................................................. 93
   4.2 Research strategy and methodology ............................................................................ 95
   4.3 Analysis of data yielded from interviews, observations, and theory ......................... 100
   4.4 Conclusion: a grounded theory on cross-national cultural difference in auditors’ behavior .................................................................................................................. 132

5. Loop Two: Culture in the Audit File – A Validation of Cross-National Cultural Differences in Auditors’ Professional Behavior ...................................... 135
   5.1 Introduction .................................................................................................................. 135
   5.2 Research strategy and methodology ............................................................................ 137
   5.3 The association between culture and auditors’ behavior ............................................. 148
   5.4 Summary and conclusion ............................................................................................. 155
6. The Behavior of Assurance Professionals: Bound and Blinded by Culture .... 157
   6.1 Summary and conclusion: the association between culture and behavior in assurance ................................................................. 158
   6.2 Implications and recommendations .................................................. 163
   6.3 Limitations of this study ................................................................. 171
   6.4 Mind the gap: much is yet unknown (avenues for future research) ........ 173

Reference list .......................................................................................... 177

Appendix 1 – Conceptual Framework of Auditors’ Professional Behavior .......... 197
Appendix 2 – Illustration of interview questions posed to interviewees .......... 198
Appendix 3 – Details of the interview population ........................................ 199
Appendix 4 – Illustrative example of observational notes ................................ 200
Appendix 5 – Details of rank ordering of questionnaire factor scores with cultural practices ............................................................................. 201

Samenvatting: Cultuurverschillen in het Gedrag van Accountants (Dutch summary) .... 207

The Behavior of Assurance Professionals – A Cross-cultural Perspective

3. Cross-national Cultural Differences
   3.1 Introduction
   3.2 What are national cultures?
      3.2.1 In search of a definition of (national) culture
      3.2.2 Hofstede’s dimensions of cultural variability (1980, 2001)
      3.2.3 Schwartz’s cultural value types (1992, 1999)
      3.2.4 Trompenaars’ cultural diversity in business (1997)
      3.2.5 House et al.’s Project GLOBE (2004)
   3.3 House et al.’s cultural dimensions further illustrated
   3.4 Levels, layers, and convergence of cultures
      3.4.1 Levels of national cultures (values, beliefs, and behaviors)
      3.4.2 Layers of culture (individual, organizational, and occupational)
      3.4.3 Globalization and convergence of cultures
   3.5 Summary and conclusion

4. Loop One: Cross-National Cultural Difference in Auditors’ Professional Behavior – A Grounded Theory
   4.1 Introduction
   4.2 Research strategy and methodology
      4.2.1 Grounded theory
      4.2.2 Sample, data collection, and analysis
      4.2.3 Five cross-national cultural dimensions (House et al. 2004)
   4.3 Analysis of data yielded from interviews, observations, and theory
      4.3.1 Judgment and decision-making
      4.3.2 Skeptical judgments and decisions
      4.3.3 Knowledge sharing and consultation behavior
      4.3.4 Working in fluid teams (engagement partner involvement)
      4.3.5 Communication and negotiation behavior
      4.3.6 Documentation and justification
      4.3.7 Dysfunctional behaviors
      4.3.8 Audit pricing and practice development
   4.4 Conclusion: a grounded theory on cross-national cultural difference in auditors’ behavior

5. Loop Two: Culture in the Audit File – A Validation of Cross-National Cultural Differences in Auditors’ Professional Behavior
   5.1 Introduction
   5.2 Research strategy and methodology
      5.2.1 The dependent variable: auditors’ professional behavior
      5.2.2 Factor analysis on the dependent variable
      5.2.3 Multi-level assessment of the dependent variable
      5.2.4 The independent variable: cross-national cultural differences
The Behavior of Assurance Professionals – A Cross-cultural Perspective
