Prof. dr. J. Lubiński

Recomeça...

Se puderes
Sem angústia
E sem pressa.
E os passos que deres,
Nesse caminho duro
Do futuro
Dá-os em liberdade.
Enquanto não alcances
Não descanses.
De nenhum fruto queiras só metade.

E, nunca saciado,
Vai colhendo ilusões sucessivas no pomar.
Sempre a sonhar
E vendo,
Acordado
O logro da aventura.
És homem, não te esqueças!
Só é tua a loucura
Onde, com lucidez, te reconheças.

Miguel Torga

Mateusz Siedliński

CONTENTS

Chapter 1: Introduction	9
General background	10
Aim and outline of the thesis	19
Chapter 2: Mononucleotide precedes dinucleotide instability during colorectal tumour development in Lynch syndrome patients	25
Chapter 3: Do microsatellite instability profiles really differ between colorectal and endometrial tumours?	43
Chapter 4: The hunt for new target genes in endometrial tumors reveals the involvement of the estrogen-receptor pathway in microsatellite unstable cancers	57
Chapter 5: Estrogens, MSI and Lynch syndrome-associated tumors	77
Chapter 6: General discussion, conclusions and future perspectives	97
Chapter 7: Summary	107
Nederlandse samenvatting	111
Resumo	114
Streszczenie	117
Acknowledgments	121
<i>Curriculum Vitae</i>	125
