**Neurological Soft Signs in  
schizophrenia and mood disorders:  
Investigating a potential endophenotype**

The studies described in this thesis were performed at the Department of Psychiatry of the University Medical Centre Groningen, The Netherlands. This thesis was made possible by the University Medical Centre Groningen (The Netherlands), The Nottinghamshire Healthcare Trust (UK) and the Department of Psychiatry of the University Medical Centre Utrecht.

Printing of this thesis was financially supported by:  
Janssen-Cilag, Bristol-Myers Squibb, Lundbeck and Wyeth Pharmaceuticals

ISBN: 90-8559-078-7

Printed in the Netherlands by Optima Rotterdam

RIJKSUNIVERSITEIT GRONINGEN

**NEUROLOGICAL SOFT SIGNS IN SCHIZOPHRENIA AND  
MOOD DISORDERS:  
INVESTIGATING A POTENTIAL ENDOPHENOTYPE.**

Proefschrift

ter verkrijging van het doctoraat in de  
Medische Wetenschappen  
aan de Rijksuniversiteit Groningen  
op gezag van de  
Rector Magnificus, dr F. Zwarts,  
in het openbaar te verdedigen op  
woensdag 28 september 2005  
om 14:45 uur

## **CONTENT:**

<b>1. Introduction</b>	<b>7</b>
– Background	
– Movement disorders	
– Endophenotypes	
– Objective	
<b>2. Method</b>	<b>15</b>
– Methods	
– Subjects	
– Assessments	
– Interrater reliability	
– Follow up	
<b>3. The 2-year stability of neurological soft signs after a first episode of non-affective psychosis.</b>	<b>19</b>
<b>4. Influence of antipsychotic agents on neurological soft signs and dyskinesia in first episode psychosis.</b>	<b>23</b>
<b>5. The specificity of neurological signs in schizophrenia: a Review.</b>	<b>29</b>
<b>6. Soft neurological signs discriminating mood disorders from first episode schizophrenia.</b>	<b>41</b>
<b>7. Negative association between a history of obstetric complications and the number of neurological soft signs in first-episode schizophrenic disorder.</b>	<b>55</b>
<b>8. Discussion and conclusion</b>	<b>61</b>
– Measurability	
– Reliability	
– Specificity	
– Suitability of NSS as an endophenotype for schizophrenia	
– Limitations	
– Genes and environment	
– Future directions	
– Conclusion	
<b>Summary</b>	<b>71</b>
<b>Dutch Summary</b>	<b>75</b>
<b>Appendix; The Cambridge Neurological Investigation</b>	<b>79</b>
<b>Curriculum Vitae</b>	<b>101</b>
<b>Dankwoord</b>	<b>105</b>
