These last years at Kapteyn Institute (and in Groningen) have been incredibly rich and intense from both a scientific and personal point of view. The unforgettable moments that I lived would simply not have been the same without the people that helped me and contributed to make my life here easier and enjoyable.

Scott, I would like first to thank you for giving me the opportunity to work on this project, which I very much enjoyed! But of course I have many more things to thank you for. Thanks a lot for your patience, for trusting me, for your valuable advice, and your being there whenever I needed it. Thank you for celebrating and being happy with every small achievement. Indeed your enthusiasm has been always of great motivation for me. Thanks also for encouraging me to make this project my own and allowing me to collaborate with other people. Thank you for being understanding and supportive in all matters, I truly appreciate it. Thanks for answering my emails right away! You have certainly spoiled me with that :). It was my pleasure to have you as my supervisor and I look forward to collaborating with you further!

Tod, it was also a real pleasure to work with you! Even though we have personally met only twice, you were always present during these years through emails and telecons. Your work, suggestions and comments contributed significantly to the results in this thesis. This work would have not been the same without your critical and constructive comments, which have always been challenging for me but at the same time gratifying and a lot of fun. Thank you very much for that!

I am grateful to my reading committee members: Antonio, Eline and Reynier, thanks for a careful reading of the manuscript and your valuable comments.

I would like to thank the secretaries at Kapteyn: Hennie, Jackie, Gineke, and Lucia for always being very helpful. Thanks to the computer group: Wim, Eite and Martin for your immediate help every time I ran to one of you with a problem. Specially Wim, thank you for always caring about how I was doing and providing me with the necessary equipment every time I required it. I am grateful to the institutions that provided me financial support during these years for my work, conferences, schools and working visits: Kapteyn Institute, RuG, NOVA, LKBF, NOAO.

Giuliana, I had a lot of fun working with you! Your continuous enthusiasm and
happiness made working much more enjoyable :). Thanks for always being interested and considerate, and for being such a cheerful person. Sebastián, thanks for being such a helpful collaborator and for always answering my kilometric emails with great detail every time I had questions and doubts. Thanks also for making me feel very welcome when I went to visit Tenerife. Jeremy, it was a lot of fun to share with you my first observing trip! Thanks also for reducing the data in such a short notice!

I am very grateful for the office-mates I had. Matthijs, it’s been a pleasure to share with you not only the beginning but also the crazy end of the PhD! Thanks for being always very nice and for keeping a quite and comforting atmosphere in the office. Thanks also for all your help during the last months dealing with a lot of paperwork for the defense and for your help with the dutch translation of the summary. I’d like to thank you and Bee for sharing a lot of very nice moments! Koshy, you are such a nice and crazy guy at the same time!:) Thanks for all the ‘peace, hope and happiness’ that you brought to the office since the beginning. Thanks for your great enthusiasm and also for defining our ‘relaxing times’... although we have not ‘always’ payed attention to them, I appreciated the intention! I also enjoyed our office-mate dinners! Thanks a lot guys!

Ayçin, you are a very sweet and caring person. Thanks for your generosity and for offered me your place to stay. Thanks for letting me feel always at home and make sure that I was comfortable. Thanks for all the fun, conversations, dinners, the delicious Turkish food! And for our trip to Turkey! I hope we can repeat it some other time. I really enjoyed sharing all these years with you and I’m sure we’ll keep our friendship through the years.

JP, thanks for all your smiles and for being always so calm and happy! Thanks for sharing with me so many moments since the beginning to the end of the PhD, such as conversations, dinners, trips, movies, etc. Thanks for your delicious meals, I learnt a lot from your cooking! And thanks for always being ready to help, especially when I had to leave my place!

Peter, thanks for all the smoking breaks in the beginning! Even though half of the time I didn’t understand what you were saying (either because of my English or because it really didn’t make sense :)), it was always nice and fun to share those breaks. Thanks for all the fun moments, for being always very helpful. Special thanks for translating my summary! And, as with JP, for helping me when I had to move out.

Paolo, thanks for being such a pleasant person to be with, for your interest and care about various different things, and for your delicious pasta! It is hard to find someone, in such a different environment from the one I grew up, with so many things in common. It was heartwarming to find out that you are one of them! Thanks also for our movie nights ... believe me, Mirjam and I truly enjoyed watching them all the way to the end ;)!

Mirjam, it was very nice to share things with you! Thanks for being always so honest and open-minded. Thanks for listening to our, sometimes, boring conversations about working issues. Thanks for all the fun and the many loud and bursts
of complicit laughter! Sofie, you are the most sweet and cutest baby! Thanks for your smiles, your kisses, your singing and dancing, for asking me to sing for you (repeatedly!) and for bringing joy to our gatherings. Mirjam and Aycin, also thanks for our important running events! It was a lot of fun to decide what to do each day, how was it? 5 times 5 min running, 1 min walking, 2 min chatting? Or 5 min chatting, 5 min walking, no running? What a confusion! :).

Yang-Shyang, it was always a lot of fun to listen to your long and detailed stories :). Thanks for being a very easy-going person and for sharing so many conversations, dinners, brunches, movies and game nights! It was always a lot of fun having you around in parties :). Thanks also for sharing your Taiwanese dessert with us.

Mati, it was nice to have another Argentinian around with whom to share ‘un mate’, milanesas, empanadas, alfajores, and argentinian music. Thanks for sharing the daily experience of living in another, and very different, country than our own. Thanks for all the fun moments and for all your help when I needed it, especially for helping us on the process of moving out even when we were not there to do so.

Boris, I always admire how passionate you are about astronomy and cars :). Thanks for the chocolates you’ve shared with me, for your short (or long!) visits to my office, and for fixing my glasses every time I needed it! Tiina, thanks for all the nice moments we shared together when you were around.

Andrea, thanks for all the coffee and smoking breaks, for your very nice pizzas, for the movie nights and for always being ready to help!

Giamba, thanks for making our poker games so much fun! Thanks also for our trip by car to the south of The Netherlands! It was a lot of fun. And thanks for calling me ‘quisquillosa’, I’m definitively one of those :).

Beike, you are such an energetic girl! Thanks for always being cheerful and offering to organize and prepare dinners, drinks, going outs, etc, and for always caring about how I was doing. Diego, thanks for always inviting us and offering your place in Amsterdam. It was a pity that I didn’t visit you more often.

Rajat, thanks for all your help in the beginning, for introducing me to the delicious Indian food and for all the fun moments. Teffie, I really enjoyed living in your cozy house during my first months in Groningen! Thanks for my first ‘stamppot’ and for being such a fun person to be with. Thomas, thanks for being a very easy-going person and for sharing your Swedish traditions with us. Mariano, thank you for our meetings in La Plata where you told us how it was to live and do astronomy abroad; also thanks for always being concern about how everything was going. Kyle, thanks for taking your time to check and edit my acknowledgements (except this :)). Teresa and Oscar, thanks for keeping my boxes in your house all these months! Don’t worry, I’ll take care of them within the next few years :).

Giussy, Alvaro, Stephanie, Burcu, Stefania, Germán, Adriana, Carlos, Teresa, Oscar, Else, Elif, Martin, Kyle, Panos, Vibor, Bruno, Pablo and probably many more people that I’m forgetting now: thanks a lot for all the nice moments, dinners, drinks and conversations that we had!

Estos años vividos lejos de mi país fueron, aunque inmensamente enriquecedores, muchas veces difíciles por tener que estar tan lejos de las personas más
queridas. Ellas también de una manera u otra participaron de lo que fue mi vida acá.

Mis amigas de toda la vida: Caro, Lau, Ana, Dai, Flor, Ine y Bel. Las extrañé mucho! Gracias por hacerme siempre sentir que estaban “cerquita” y por darme fuerzas y ánimos cuando lo necesitará. Gracias por hacerse un tiempo para poder juntarnos cada vez que yo estaba en Argentina y por hacerme sentir que no había pasado el tiempo! “Todavía me divierto con ustedes!” dijo Caro jajaja. Gracias por compartir a la distancia los nacimientos y crecimientos de los primeros bebés del grupo!

Ine y Mato, mis “hermanitas” de La Plata, no saben cuánto extrañé nuestras charlas, nuestras cenas en “familia”, el día a día compartido, las anécdotas, el cuidado mutuo. Gracias por estar presentes y por hacerme sentir de nuevo en casa cada vez que estuve en La Plata.

Pety, Andrés, Juani, Lucila, Lupe, Nico, Luis, Nico, Guido, Fede, Lucas y Ale: También los extrañé mucho! Gracias por hacerse un tiempito para vernos cada vez que estaba en Argentina! y por hacerme revivir los hermosos momentos de estudiante universitaria! Vero, Ceci, Clau, Ani, Ana y Andre: Gracias por sus largas cadenas de emails! por estar siempre en contacto y por compartir tanto las alegrias como las tristezas de cada una!

Marce, Ricardo y Guada, muchas gracias por estar siempre presente y por todo el apoyo. Gracias por las visitas a Gronigen! fue lindo tenerlos en casa y compartir con ustedes nuestra vida acá :). Y gracias por los riquísimos (y tan necesitados!) asados que han hecho cada vez que estaba en Buenos Aires.

Mami, gracias por aceptar y no sólo respetar sino también estimular mis deci-
siones, aún imaginando lo doloroso que debe ser tener una hija tan lejos. Gracias por estar siempre presente y dispuesta a ayudar en lo que sea, cuándo sea y a la hora que sea. Gracias por tu alegría y por darme ánimos y fuerzas cada vez que lo necesité. Te quiero mucho! A mis hermanos Fabri, Aldi y Mari, los extrañé mucho todos estos años! gracias por tantas muestras de cariño y amor!

Facu, a veces siento que esta tesis es casi tanto tuya como mía por todo lo compartido y vivido juntos desde su inicio. Compartir mi vida con vos es lo más hermoso que puede pasarme: el día a día, nuestras metas, nuestros miedos, nuestro hoy, nuestro pasado, nuestros sueños de futuro, etc. Gracias amor, por iluminar mis días, aún los más grises y lluviosos de Holanda. Gracias por recordarme siempre que no hay cosas imposibles si uno realmente las desea y lucha por ellas. Gracias por haberme dado fuerzas y empujarme para seguir adelante cuando todo parecía difícil; así como por frenarme y mantenerme en mi camino cuando fue necesario.... En definitiva: gracias por balancear mi mundo y ser ese complemento perfecto en la vida. Me hacés muy feliz.
