After my arrival in Groningen I realized quite fast, how special this place is. And I mean not only Groningen as a city with its lively, colorful market, nice cafés and many festivals, but also the Stratingh institute. For me this is one of the best places to perform research, because of the excellent equipment, the collaborations between the research groups and the particular working atmosphere. This atmosphere is created by many great individuals forming this dynamic group of international researchers from around the world. Therefore, I would like to thank everybody, who was part of this group and made my five years of PhD to a unique experience.

Thank you Adri, for giving me the opportunity to work in your group, and to be always supportive. I am grateful, that you gave me the chance to work on the school campaign promoting the chemistry department at German high schools. I thank you for taking the time, to discuss with me from the first moment everything in Dutch. I appreciate very much, your time for the corrections and especially the last minute corrections!

I would like to acknowledge the members of the reading committee, Prof. Harutyunyan, Prof. Heeres and Prof. Pieters for reading and approving my thesis as well as for their valuable corrections of the manuscript.

I would like to express my gratitude to all technicians for their help: Ebe for teaching me how to use the hydrogenation system and for taking care of all our equipment, Theodora and Monique for teaching me all the details about HPLC, GC-MS and measuring my HRMS samples, Hans for taking care of all our equipment, Pieter and Wim for all problems related to the NMR, especially in the new building. Thank you, Hilda and Alphons for your advice with documents and paperwork.

The first two and half years of my PhD I spend on Koffie Klub Island, lab 14.245 in Nijenborgh 4. I shared the lab with Adi (Adipedia), Bart, Danny (Singstar), Diane, Edwin, Fabian, Jeffrey, Leticia, Maxime, Niek, Santi (la Chouffe), Wendy and Yange. I thank you all for making my everyday life in the lab so enjoyable. I especially thank our neighboring lab (Vysom) for providing the famous Friday afternoon music mix and sharing chemicals: Ashoka, Bas, Cati, Chris, Dorus, Felix, Johannes, Manuel, Maria, Miro, Thomas and Simon. In 2011 Adri’s group moved to the green building, Linnaeusborg, together with Anna’s group and some people from Ben’s group. I want thank everyone for creating a nice working atmosphere in the new labs: Alrik, Anja, Ana, Anniek, Bea, Blijkke, Claudia, Derk Jan, Gosha, Hylke, Jasmin, Jelle, Jonas, Kiran, Marcel, Mark, Michel, Milon, Nick, Patrick, Peter, Selma, Stephan, Steven, Tiziana, Vasu, Wienand, Wiktoria, Wim and Zhongtao.
During my PhD more research groups joined the Stratingh institute, therefore, I will not name anyone in person. I want to thank everyone, who organized or participated in one or the other social activity (work week, bbq’s, rondje lab, sailing trip, christmas borrel, soccer subgroup), for creating those unforgettable moments.

I want to thank Hella, Anne and Jeffrey Bos for their patience to chat with me in Dutch, especially in the beginning. This really encouraged me to continue speaking Dutch. Later in the Linnaeusborg I was lucky to share the office with Edwin, Anniek and Mickel, who tried to teach me small details and Dutch sayings. Thank you!

Katja, Maria, and Zhongtao I am grateful for your time to proof read my manuscript. Pat, Felix and Rik thank you for correcting my summary and for your useful suggestions. Anne, I appreciate your help with rewriting the Dutch summary!

Thank you, Erik, Catı and Jochem for your pleasant welcome and support, when I started in Syncom.

Also outside of the lab I really enjoyed my life, during many nice dinners, board game evenings, concerts, festivals, pilates, dance shows, trips, cooking classes with Suresh, parties, and the traditional Saturday coffee meetings. I am very glad to have shared those moments with good friends!

I am happy two have two of my best friends as paranims at my side on a very special day. Pat, thank you for all your support during the last couple of years, and for organizing our wonderful trip to Thailand. Tizi, thank you for sharing so many stories form the past and the present, and for creating the expression German vibrations, it always makes me smile 😊

Liebe Oma, leider konnte ich in den letzten Monaten nicht so häufig zu Hause sein, um dich und Mama besser zu unterstützen. Ich bewundere deinen Kampfgeist. Danke für deine vielen Anrufe und Besuche hier in Groningen!

Liebeste Mama, ich danke dir für all die Liebe und Unterstützung, die du mir gegeben hast, ohne die hätte ich diese Arbeit nie zu Ende geschrieben!

Carpe diem
