Maternal Phenotypic Engineering

Adaptation and Constraint in Prenatal Maternal Effects

The research reported in this thesis was carried out at the Zoological Laboratory, Researchgroup Animal Behavior of the University of Groningen, P.O. Box 14, 9750 AA Haren, The Netherlands.
The production of the thesis was funded by the University of Groningen and financially supported by the school for Behavioral and Cognitive Neurosciences (BCN)

Prenatal Maternal Effects**

PROEFSCHRIFT

ter verkrijging van het doctoraat in de
Wiskunde en Natuurwetenschappen
aan de Rijksuniversiteit Groningen
op gezag van de
Rector Magnificus, Dr. F. Zwarts,
in het openbaar te verdedigen op
vrijdag 1 oktober 2004
om 14.45 uur
door

Wendt Müller
geboren op 5 februari 1974
te Mönchengladbach

Promotor:

Prof. Dr. S. Daan

Copromotor:

Dr. C. Dijkstra

Dr. T.G.G. Groothuis

Beoordelingscommissie:

Prof. Dr. R.V. Alatalo

Prof. Dr. E. Gwinner

Prof. Dr. J. Komdeur

I was spurred on by an uncertain longing for
what is distant and unknown, for whatever
excited my fantasy

Alexander von Humboldt, 1801

Addresses of co-authors

Rauno V. Alatalo, Heli Siitari

College, Auchincruive, Ayr K46 5HW, UK

Contents

Chapter 1: General introduction	9
Chapter 2: Within clutch co-variation of egg mass and sex in the black-headed gull (<i>Larus ridibundus</i>)	21
Chapter 3: Sex differences in yolk hormones depend on maternal social status in Leghorn chickens (<i>Gallus gallus domesticus</i>)	35
Chapter 4: Within-clutch patterns of yolk testosterone vary with the onset of incubation in black-headed gulls	47
Chapter 5: Maternal antibody transmission and breeding densities in black-headed gulls	59
Chapter 6: Multiple pathways of maternal effects in black-headed gull eggs: Constraint and mutual adjustment	71
Chapter 7: Inter-sexual differences in T-cell mediated immunity of black-headed gull chicks (<i>Larus ridibundus</i>) depend on hatching order	87
Chapter 8: Consequences of experimentally manipulated brood sex ratios in a sexually dimorphic species	101
Chapter 9: An experimental study on the causes of sex-biased mortality in the black-headed gull - the possible role of testosterone	115
Chapter 10: Short- and long-term consequences of prenatal androgen exposure on the immune system of black-headed gulls	129
Chapter 11: Synthesis	147
