Publications in refereed Journals

1. “Detection of optical emission in the area of G127.1 + 0.5”

2. “Photometry of the spiral pair NGC 450/UGC 807 and the optical thickness of galactic disks”

3. “Exponential bulges in late-type spirals: An improved description of the light distribution”

4. “The shape of the luminosity profiles of bulges of spiral galaxies”

5. “The effects of a disc field on the bulge surface brightness”
