Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged.

## TABLE OF CONTENTS

Chapter 1	Introduction	9
-----------	--------------	---

### PART 1 | DIURETIC RESPONSE IN ACUTE HEART FAILURE

Chapter 2	Diuretic response in acute heart failure: pathophysiology, evaluation and therapy <i>Nature Reviews Cardiology 2015;12(3):184-192</i>	19
Chapter 3	Diuretic response in acute heart failure – an analysis from ASCEND-HF <i>American Heart Journal 2015;107(2):313-321</i>	41
Chapter 4	A combined clinical and biomarker approach to predict diuretic response in acute heart failure <i>Clinical Research in Cardiology 2016;105(2):145-153</i>	67
Chapter 5	Combining diuretic response and hemoconcentration to predict rehospitalization after admission from acute heart failure – lessons from PROTECT and EVEREST <i>Accepted Circulation: Heart Failure</i>	87
Chapter 6	Tackling early heart failure deaths and readmissions by estimating congestion <i>Journal of American College of Cardiology: Heart Failure 2015;3(11):894-895</i>	111

## PART 2 | RENAL BIOMARKERS IN HEART FAILURE

Chapter 7	Hypochloremia, diuretic resistance and outcome in patients with acute heart failure <i>Submitted</i>	119
Chapter 8	Plasma KIM-1 in heart failure: renal mechanisms and clinical outcome <i>Accepted European Journal of Heart Failure</i>	139
Chapter 9	Plasma fibroblast growth factor 23, therapy optimization and outcomes in worsening heart failure <i>To be submitted</i>	163
Chapter 10	Creatinine excretion rate and clinical outcome in patients with systolic heart failure <i>Clinical Research in Cardiology 2014;103(12):976-983</i>	183
Chapter 11	Summary and future perspectives	201

<b>APPENDICES</b>		215
	Dutch summary   Nederlandse samenvatting	217
	Acknowledgements   Dankwoord	227
	Bibliography	233
	Curriculum Vitae	239
