GENOME INSTABILITY; LESSONS FROM SINGLE-CELL SEQUENCING STUDIES

Niek van Wietmarschen

The work described in this thesis was conducted at the European Research Institute for the Biology of Ageing (ERIBA) University Medical Center Groningen, University of Groningen Groningen, the Netherlands.

ISBN (printed version): 978-90-367-9214-1

ISBN (digital version): 978-90-367-9218-9

Printing of this thesis was supported by:

- UMCG Graduate School of Medical Sciences
- The Bloom Syndrome foundation

Photography: Nancy Halsema

Printing: Ridderpint BV, the Netherlands

Genome instability

Lessons from single-cell sequencing studies

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties

De openbare verdediging zal plaatsvinden op

woensdag 30 november 2016 om 11.00 uur

door

Niek van Wietmarschen

geboren op 27 september 1986
te Hengelo

Promotor

Prof. dr. P.M. Lansdorp

Copromotor

Dr. E.J. Uringa

Beoordelingscommissie

Prof. dr. I.D. Hickson

Prof. dr. P. Knipscheer

Prof. dr. M.A.T.M. van Vugt

Table of contents

Chapter 1	General introduction & thesis outline	7
Chapter 2	Bloom syndrome & the BLM helicase	31
Chapter 3	Bromodeoxyuridine does not contribute to sister chromatid exchange events in normal or Bloom syndrome cells <i>Nucleic Acids Res. 2016 Aug 19;44(14):6787-93</i>	57
Chapter 4	Bloom syndrome sister chromatid exchanges frequently occur at G-quadruplexes motifs on transcribed DNA strands <i>Manuscript in preparation</i>	71
Chapter 5	Building complete chromosomal haplotypes using single-cell sequencing <i>Genome Res. 2016, Sep 19</i>	97
Chapter 6	Quality control of nuclear reprogramming by single cell genome analysis <i>Cell Stem Cell. 2014 Sep 4;15(3):295-309</i> & <i>Cell Stem Cell. 2015 Nov 5;17(5):543-56</i>	125
Chapter 7	Discussion & future perspectives	139
Addendum	The mammalian proteins MMS19, MIP18, and ANT2 are involved in cytoplasmic iron-sulfur cluster protein assembly <i>J Biol Chem. 2012 Dec 21;287(52):43351-8</i>	153
Appendices	Nederlandse samenvatting (voor niet-ingewijden)	170
	Curriculum vitae	174
	List of publications	175
	Dankwoord/acknowledgements	176
