CONTENTS

Chapter 1	Introduction and aims of the thesis	9
Part I	The effect of hydrocortisone treatment on psychological outcome measures in patients with secondary adrenal insufficiency	
Chapter 2	The effect of two different doses of hydrocortisone on cognition in patients with secondary adrenal insufficiency – results from a randomized controlled trial. <i>Psychoneuroendocrinology 2015;55:36–47</i>	29
Chapter 3	Hydrocortisone dose influences pain, depressive symptoms and perceived health in adrenal insufficiency: a randomized controlled trial. <i>Neuroendocrinology 2016;103(6):771–8</i>	63
Chapter 4	The role of cortisol in the association between perceived stress and pain: a short report on secondary adrenal insufficient patients. <i>Journal for Person-Oriented Research 2016;2(3):135–141</i>	87
Part II	The effect of hydrocortisone treatment on somatic outcome measures in patients with secondary adrenal insufficiency	
Chapter 5	Somatosensory functioning in patients with secondary adrenal insufficiency treated with two different doses of hydrocortisone – results from a randomized controlled trial. <i>Submitted</i>	101
Chapter 6	Effects of hydrocortisone on the regulation of blood pressure – results from an RCT. <i>Journal of Clinical Endocrinology & Metabolism 2016;101(10):3691–3699</i>	115
Chapter 7	Pharmacokinetics of hydrocortisone: results and implications from a randomized controlled trial. <i>Accepted in Metabolism</i>	141
Chapter 8	General discussion and future perspectives	165
Chapter 9	Summary	185
	Samenvatting	193
	Dankwoord	201
	About the author	207
	List of publications	211
