Table of contents

Chapter 1	Introduction and Aims of Thesis	9
<i>Part 1: The prevalence and measurement of albuminuria in children</i>		
Chapter 2	Prevalence and distribution of (micro)albuminuria in toddlers	23
Chapter 3	Comparison of urine collection methods for albuminuria assessment in young children	39
Chapter 4	How to measure and monitor albuminuria in healthy toddlers	51
<i>Part 2: The treatment of albuminuria in children</i>		
Chapter 5	Early proteinuria lowering by ACE inhibition predicts renal survival in children with chronic kidney disease	65
Chapter 6	Should RAAS inhibition be discontinued in children with advanced chronic kidney disease? Results of the 4C study	87
Chapter 7	Summary and future perspectives	101
<i>Appendices</i>		
	Nederlandse samenvatting	111
	Dankwoord	119
	About the author	125
