Cover

Ontworpen door Tim Valkeman

Op de omslag van dit proefschrift ziet u hoe een groep wielrenners samen een jongen met een bewegingsstoornis (dystonie) de Mont Ventoux omhoog brengt. Dit symboliseert hoe het werken in teamverband de zorg voor patiënten verder kan brengen.

Gerben is de inspiratie voor deze omslag. Hij was de allereerste jongen die meedeed aan mijn onderzoek en de reden waarom ik in 2016 zelf de Mont Ventoux heb mogen beklimmen met de stichting Join4Energy.
