In search of animal models for sexual dysfunction

Pharmacological studies in normal
and serotonin transporter knockout rats

Diana Carolina Esquivel Franco

The Project presented in this thesis was a collaboration between the University of Groningen (RUG), The Netherlands, and Universidad Nacional Autónoma de México (UNAM), Mexico. The research was performed at the Behavioral Neurobiology group at the Groningen Institute for Evolutionary Life Sciences (GELIFES, RUG) and the Department of Cell Biology and Physiology at the Instituto de Investigaciones Biomédicas (IIB-UNAM). The study was supported by individual training provided by a Scholarship at the RUG and a CONACyT scholarship at the UNAM, Mexico.

The printing of this thesis was financially supported by the University of Groningen and the Graduate School of Science and Engineering (GSSE) of the Faculty of Science and Engineering.

In search of animal models for male sexual dysfunction

Pharmacological studies in normal
 and serotonin transporter knockout rats

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans

and

to obtain the degree of PhD at the
 Universidad Nacional Autónoma de México
 on the authority of the
 Rector Magnificus Prof. E. Graue
 and in accordance with
 the decision by the College of Deans.

Double PhD degree

This thesis will be defended in public on

Friday 20 September 2019 at 14.30 hours

by

Diana Carolina Esquivel Franco

born on 28 August 1987
 in Mexico City, Mexico

Supervisors

Prof. J.D.A. Olivier

Prof. M.J.H. Kas

Prof. G. Gutierrez Ospina

Assessment Committee

Prof. A. Scheurink

Prof. J.C. Billeter

Prof. L. Vanderschuren

Prof. G. Roldan Roldan

Para mi hermosa, pequeña y amada Agnes

For my beloved Agnes

Voor mijn kleine lieve Agnes

Contents

Chapter 1	Introduction	9
Chapter 2	Is ejaculation latency related to the size of the genital cortical representation?	35
Chapter 3	Sexual behavior in male Serotonin Transporter Knockout rats	55
Chapter 4	Tramadol: effects on sexual behavior in male rats are mainly caused by its 5-HT reuptake blocking effects	75
Chapter 5	Tramadol's inhibitory effects on sexual behavior: pharmacological studies in serotonin transporter knockout rats	97
Chapter 6	Pharmacological studies on the role of 5-HT _{1A} receptors in male sexual behavior of wildtype and serotonin transporter knockout rats	141
Chapter 7	General Discussion	183
Appendix	References	195
	English Summary	213
	Nederlandse samenvatting	223
	Resumen en español	233
	Acknowledgments	243
	Biography	249
	List of publications	253
	Funding	257
