CONTENTS

Chapter 1	9
General introduction	
CHAPTER 2	33
Digital ischemia during cooling is independently related to nailfold capillaroscopic pattern in patients with Raynaud's phenomenon	
CHAPTER 3	53
Longitudinal nailfold capillaroscopy tracking of microangiopathic changes in systemic sclerosis	
CHAPTER 4	59
Assessing recovery after cold challenge and thumb involvement can help to rule out systemic sclerosis in patients presenting with Raynaud's phenomenon	
CHAPTER 5	71
Nailfold capillaroscopy abnormalities are associated with BMI in subjects with Raynaud's phenomenon	
CHAPTER 6	83
Abnormal nailfold capillaroscopy is common in patients with connective tissue disease and associated with abnormal pulmonary function tests	
CHAPTER 7	103
Pulse Wave Velocity in Systemic Sclerosis: potential beneficial effects of bosentan on forearm arterial stiffness? An exploratory study	

CHAPTER 8	123
Treatment of resistant Raynaud's phenomenon with single-port thoracoscopic sympathectomy: a novel minimally invasive endoscopic technique	
CHAPTER 9	137
Summary, general discussion and future perspectives	
Nederlandse samenvatting	160
Dankwoord	168
Curriculum vitae	175
Bibliography	176
