A Tale of Two Cell Factories

Heterologous protein secretion in
Bacillus subtilis and *Lactococcus lactis*

Jolanda Neef

The work described in this thesis was performed in the Laboratory of Molecular Bacteriology, Department of Medical Microbiology of the University of Groningen and the University Medical Center of Groningen (The Netherlands).

The studies presented in this thesis were financially supported by the Top Institute Pharma (Project T4-213 and T4-502) and Genencor-DuPont (Palo Alto, CA, USA).

Publication of this thesis was partly supported by the Graduate School of Medical Sciences of the University of Groningen.
