Phase 2: Appointment as UHD 2

- Appointment as UHD 2
  - On appointment, a contract will be drawn up which sets out the agreements concerning the responsibilities, the support (training, supervision) and the resources, assessment criteria, assessment points and career consequences. These agreements will be made between the supervising professor and the candidate and will cover the duration of the UHD2 path. They will be presented for approval to the Faculty Board.
  - Interim evaluations will be conducted during the performance appraisal interviews.

Assessment after three years

Within three years, the functioning of the candidate will be assessed in accordance with the usual guidelines. A non-positive appraisal leads to a continuation of the UHD 2 appointment. A positive appraisal will result in appointment for one to four years as UHD 1. She/he will also be recommended to the Executive Board for appointment to junior professor. This recommendation will be accompanied by a report setting out the teaching and research responsibilities of the junior professor.
