

Peerceptiv[®]

Anonymized peer review based on your criteria or rubric. The reviews are assessed as well. Grading is based on the quality of the work and quality of the feedback provided.

The screenshot displays the Peerceptiv web interface. On the left, there is a sidebar with the Peerceptiv logo and navigation tabs. The main content area is titled "1. Constructing an Argument" and contains the following text:

How well has this student constructed their argument?
Give specific examples of what they did well.
Give specific examples of what they could do to improve claim, structure, and counter claim

Comment 1:

[Text input field with three lines of placeholder text]

Claim/Thesis.

5 [dropdown arrow]

Structure.

4 [dropdown arrow]

Counterclaim.

On the right, a document preview is shown, featuring a line graph with four curves (blue, orange, green, purple) and several paragraphs of text represented by grey bars.
