

# Privacy Statement TokenTest App

## 1. Introduction

The University of Groningen (UG) is keen to take care of your personal data. The UG is legally responsible in this respect, and the UG takes this responsibility seriously. This privacy statement explains how the UG processes your personal data and sets out your rights. The privacy statement is supplementary to the [UG's general privacy statement](#). In the event of an inconsistency, this privacy statement takes precedence.

## 2. Contact details

The UG can answer most of your questions and requests. Please contact:

University of Groningen

Postal address: P.O. Box 72, 9700 AB Groningen

Email: [privacy@rug.nl](mailto:privacy@rug.nl)

Your messages will always be shared with the UG's Data Protection Officer.

## 3. Processing personal data with TokenTest App

The TokenTest App is a tablet application aimed at supporting Speech and Language Therapists (SLTs) in the diagnosis of aphasia, an acquired language disorder due to brain damage. The App concerns the digital version of a well-established paper-and-pencil diagnostic tool.

Before starting the test, your SLT will fill in the following data: your participant ID, your age and e-mail-address for results (usually the one of the SLT). The app counts your correct and incorrect responses. Once the testing is finished the app offers to use the built-in e-mail program of the tablet to send the results to the provided address. This mail includes your participant ID, age, the scores for each command (0, 0.5 or 1) and the final score (a number between 0 and 36).

## 4. Recipients of your personal data

User data and metadata generated by the app are not shared with the UG. However, you may share user data with third parties using the built-in e-mail program.

Through settings on your mobile device, you may allow third parties to use the user data and meta data. The University of Groningen does not accept liability for this.

## 5. Storage period

The data are cleared from the app-memory once a new participant is entered or the app is closed. If the app is only minimized the data are stored within the app.

## 6. Your rights

The UG is always available for any questions, requests and complaints you may have, but if necessary, you are also entitled to lodge a grievance with the competent authority. In the Netherlands, this is the Dutch Data Protection Authority (Autoriteit Persoonsgegevens).

## 7. Changes to this privacy statement

The UG is authorized to change this privacy statement. Valid reasons for doing so include: changes to legislation and regulations, changes to the UG's general privacy policy and progress in technology.
